

Moon 9 ~ Moon of Realization

Dogs running in the Night of Warrior Realization *as Moon Wizards Meet the World*

The Dog's heartfelt actions we've been taking, now bring forth real love reflected in the forms and world and people around us. Sacred service to what and who we love is a real way to live fully.

Inspired by love, we deepen into re-dreaming the stories of our lives, and living that re-storying, having the will and energy to make it real in this earthed world, through the connection of our selves with the forms and cycles beyond our selves, right along with the equinox's springing forth. An extremely powerful earthed grand trine of Pluto, Jupiter and Mars, with Venus joining in, flows us into a real change, the embodying of our dreams, our true vision. This is a potent time of making real what we've longed for.

The newly springing Sun conjuncts Uranus in Aries squaring Pluto, so there's also some Warrior sparking going on, even some transformational push comes to shove revolutionary spirit that will become even stronger this summer. Now's the time to step into our power, to embody our intelligence and fearlessness, enabling us to treat ourselves and others with respect because we are not threatened.

- 3/8 Full Moon in Virgo
