

Moon 4 ~ Moon of Form

Warrior Moon magic Forms a Wind

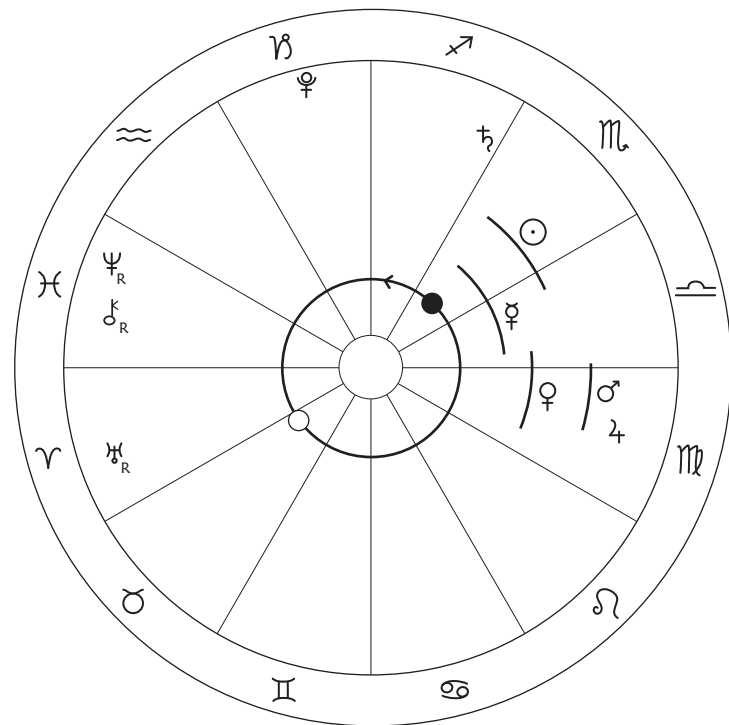

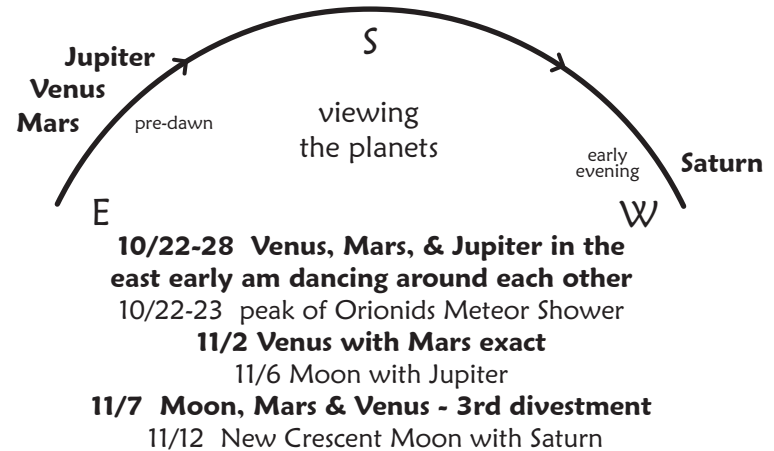

during our 10 Wizards Manifesting as Serpent Portals year

Now we ripen into **Warrior** form, embodying strength, presence, and respect. What we do with care and craft becomes tangible beauty in the world that serves Life. All through this Warrior wave, Venus, Mars and Jupiter dance together before dawn in the east, inviting us to get up early and get to the making! We have the energy for this now, and it brings good fortune and prepares us for the magic to come.

The **Moon** changes us into the Green Realm of Magic. In this time, able magic has the power to shift and change form night to night. The chaste lovers, Venus and Mars, come together in Virgo by moonlight, and **Jupiter trines Chiron**. This brings a time for master-teacher/student-apprentice forms of learning and healing. The Moon makes an awe-some foursome dancing with Jupiter, Mars, then Venus in one night until dawn for the 3rd divestment, where Venus removes her necklace and prepares to speak and sing. Our year to come is conceived (to be born on July 26, 2016), a dissolving and liberating Storm lit by a sliver of waning moon.

From the Scorpionic New Moon and Sun depths, arises a **Wind** that speaks the seemingly intangible into form. Our words and songs become our selves...
