

# Moon 2 ~ Moon of Relatedness

## **Night Warrior Moon Relatedness**

during our Earth Seeding Action year

Deep in the **Night**, from deep in our selves, we open into meeting and relating while still residing in our own mastery and authority. A revolutionary experience! Allow old structures of relatedness to be transformed into unique expressions of a more authentic and immediate story of true intimacy.

This Virgo time of year that always encompasses the Moon of Relatedness suggests the early root of “virgin” which means - not being owned by anyone. It also means a “young shoot” of a plant.

Now’s the time for ripening into our ability to presence as **Warriors**, embodying our strength and power, maintaining self-love and service to the sacred, not letting go of who we are in relatedness, not being complicit, having the courage to be intimate. When we don’t feel threatened, we don’t need to be defensive. In this way, we can begin to approach another and all of life with dignity and respect. Aspire to meet the challenges that arise well.

Entering the realm of **Moon** magic, we experience the cyclical rhythms of relatedness, waxing and waning through the phases, as we visit the starry mansions of our lovers night to night.
