

# Moon 3 ~ Moon of Motion

## **Moon Wind Eagle Motion**

during our Earth Seeding Action year

During this **Moon** wave, the Full Moon in Pisces shines us into Moon 3, setting into the Earth as the Sun rises. Phase-changing signs show the way and rhythm guides the tides in our beings as we learn to flow, led by the lunar dance.

Saturn in Scorpio sextiles Pluto in Capricorn, in mutual reception, as Pluto goes direct. It's like a transformational house swap, where Saturn takes responsibility for cleaning and organizing the basement and making it into a more creative space, while Pluto redoes the foundation. Positive momentum comes from engaging with what calls out to be attended to...

The Autumn Equinox rides in on the **Wind** wave as the unseen breezing through our lives, whispering messages in the rustling of trees. Breathe in. Listen. Breathe out. So too, what we sing, and say, sets things in motion, soon to come into form.

Lifted into flight, **Eagle** rides the wind, seeing where it wants to go. Let your independent vision guide where you bring your attention.

The Moon, Wind and Eagle in the upper worlds are moving us, even as Saturn and Pluto plumb the depths. And it's for us to open to becoming the middle that joins these three levels.
