

Moon 4 ~ Moon of Form

Star Dragon Wizard Form

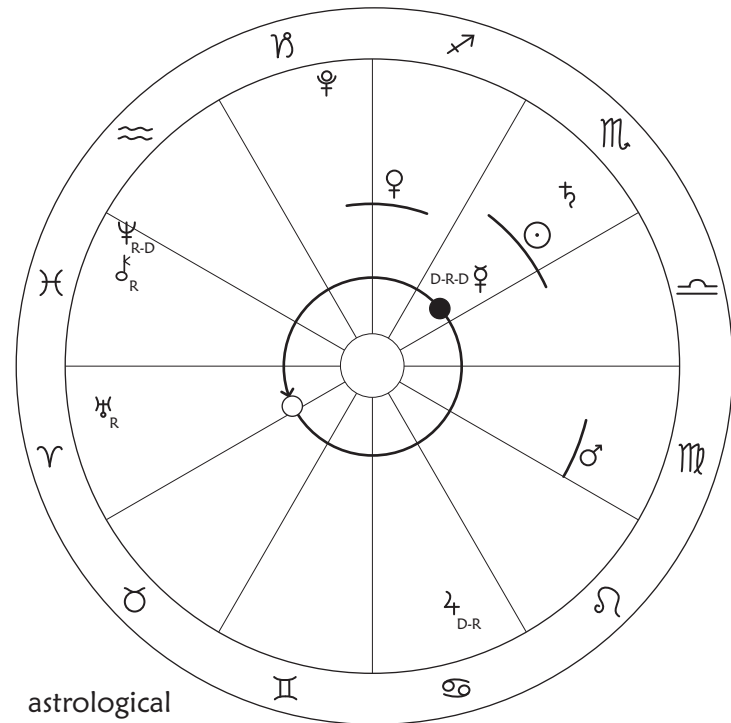

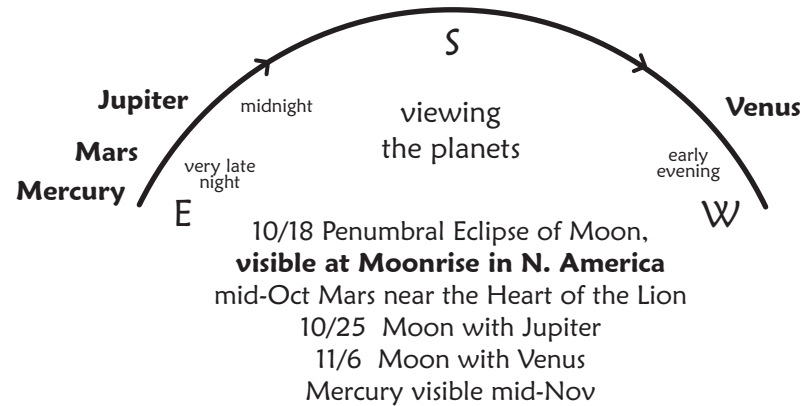

during our Earth Seeding Action year

The **Star** wave draws our attention upward to the forms of the storied pattern dance of sparkling lights in the heavens. The Full Moon is slightly eclipsed and Mercury dances backwards, while Mars courts the heart of the Lion and Saturn approaches the Archway of the Scorpion's claws. Potent omens in any age!

Dragon stirs the deep, slowly beginning to birth us into a seriously revolutionary new Form, from All Hallows, through the Day of the Dead (on which Uranus squares Pluto), and the Scorpio New Moon Lunar Eclipse with Saturn, Mercury, and Zubenelgenubi. For nine months we'll be growing into this new form, wave by wave. The times of the Dark Moon are upon us, for many moons to come, the times when the stars shine brightest and we're closest to the vast encompassing body of our cosmic source.

What better to be in such a time than a **Wizard**, shapeshifting from form to form in an effortlessly magical response to the unfolding of the moment, allowing the universe to embody.
