

Moon 6 ~ Moon of Balancing

Sun Skywalker World-bridger Balancing

during our Earth Seeding Action year

The seed of our new self now meets the whole of the world beyond our selves, growing into being a shining **Sun**, living our unique way and place in the world for which we've been preparing for 14 years! Generosity is living radiantly, warmth and light pouring through us.

Through journeying, through being **Skywalkers** exploring the nature of space and time, we're refined by life, learning to balance self and the many worlds we encounter, dancing with and through the cosmic reality as a new way of organizing our experience.

Mars touches off some relational tensions that are likely to be revisited and intensified in the spring, so notice what arises and do what you can to be creative in how you transform to meet the situation. If we can learn to be gracious and act as if we're guests rather than like we own the place, it will help to keep the peace. The New Year is serious, dark and deep. Stay home and dream.

Then, we fully enter the liminal zone of the shadowlands between worlds, and are asked to learn to dwell there as **World-bridgers**. Be open to unexpected encounters with important spirit beings.

Jupiter trine Saturn very strong

- 12/17 **Full Moon in Gemini**, Uranus goes Direct in Aries
- 12/21 **Sun into Capricorn ~ Winter Solstice**
Venus goes Retrograde until 1/31
