

Moon 8 ~ Moon of Action

Human Serpent Mirror Action

during our Earth Seeding Action year

Just yesterday, on an 8 Storm day, Mercury went retrograde in Pisces, and now we enter Moon 8, in this 8 Seed year. Action is not what we thought it was! We're being asked to reconsider, to revise how we take action and from where in our **Human** beings, to learn to live from our oceanic depths, guided by rich images, symbols and divinations, rather than trying to be direct and logical.

Mercury retrogrades into Aquarius as the **Serpent** wave & portals begin, showing us that this unique new way comes through letting our body-knowing be what actively moves us in an undulating dance, restoring our vitality, enabling a sensual experience of life.

These body changes are reflected in a **Mirroring** perceptual shift, accompanied by Jupiter squaring Uranus, during which Mercury goes direct, then Mars and Saturn go retrograde, then Jupiter goes direct. We're being invited to expand our minds, to notice and contemplate the changingness, the back and forthness, as a way of being in action. This is so different from thinking or being in our heads. It's time to see what's being shown to us and how we reflect others and what's happening energetically.
