

Moon 10 ~ Moon of Manifestation

Seed Earth Dog Night Manifesting

during our Earth Seeding Action Year

Seed Warrior walks in strength and freedom. The challenge is to maintain ourselves amidst the growingness, meeting what is with embodied presence, staying true, respectful of others and all of life.

Earth shakes and shifts, while we Seed the Earth in every direction, as has been our learning throughout this whole year. Now, this becomes our living of what is. *Everything we do and say is a Seed!*

A Total Lunar Eclipse in Libra will be visible in (and thus focusing it's energies upon) North America, just as Mercury pokes the Uranus/Jupiter/Pluto T-square. Try not to react! That's just the lead up to the **Dog** wave where Mars in Libra makes that T-square into a **Cardinal Grand Cross**. This initiates a potentially volatile and challenging time!! We'll want to know who our dogs are!

Night descends and we go within, into our homes and beings, for the New Moon Solar Eclipse. We may glimpse a glimmer of hope.
