

# Moon 13 ~ Moon of Freedom

## **Eagle Star Dragon Freedom**

during our Earth Seeding Action year  
toward a year of Moon Dragon Realization

**Eagle** flies free thru the cosmic gate into the vast dark of the Moon in Cancer, seeing visions of the 9 Moon year that arrives 28 days from now, on a New Moon in Leo. Then Mercury slows and turns direct, and our thoughts too soar toward freedom.

In that dark expanse, we see the glittering beauty and elegance of the dance of the **Stars**, and are so inspired that even Jupiter joins us by moving into Leo for the next year. This promises to be an expansive journey into our creativity. "Fabulosity" is the word.

Then **Dragon** births us into Freedom, a return to an ongoing lived connection with the all-that-is, which develops and grows in us over the course of the coming year, through each moon cycle. Watery Venus, Mercury, and Neptune attend the harmonious birth.

On the Day out of Time, we're dancing with the stars, and Mars finally gets to depart from Libra and plunge so deep into Scorpio!
