

● Moon 1 ~ Moon of Purpose

Dragon's Wizard Hands are Purposeful

beginning our 9 Dragon Moon Realizations year

The **Dragon** wave births us into Freedom, our purpose to be lived by continually originating from source, realized through the first 9 Moons of this new year. Venus removes its robes as we own our root chakras, then Mars enters the Scorpionic depths. We approach the new year deeply rooted in the watery flow of our bodies!

The new year dawns on a red Moon day in a red Dragon wave in the red realm of New Beginnings. And fittingly, the birth of this 9 Dragon Moon Realizations year comes at the New Moon, with the Sun, Moon, and Jupiter conjunct in Leo. Syzygy! This brings the birth of enthusiastic, expansive self-love and creative expression, in a word "fabulosity." Experience yourself through the unfolding of the natural rhythms and cycles as a way of becoming amazingly real.

Central to our year's purpose is living as **Wizards**, dedicated to effortlessly living our gifts and doing our sacred work, using magical approaches, which is echoed by the Saturn-Chiron trine. Shapeshift with the changing phases of the Moon as it waxes to full in Aquarius.

With our **Hands**, realization becomes tangible, as we touch and craft, giving of ourselves generously, and making beauty. "Work as love made visible" can be seen too in the sky story with Jupiter and Venus conjoining in the east, and Mars with Saturn in the west. Go deep and do the work. It's a way of being in connection with source.
