

Moon 4 ~ Moon of Form

Humans become Serpents in Mirror Form *during our 9 Dragon Moon Realizations year*

A journey exploring relatedness in **Human** form clarifies and refines our experience of freedom. As we reach the peak, the Sun, Moon, and Venus slip into Scorpio together through the reflection of a Mirrored portal, partially eclipsing the Sun. Enjoy embodying the potency of these energies with mastery, while attuning to a shift in perceptual reality that will take full form in a few weeks.

Serpent slithers us into an undulating sensuous dance, infusing vitality into our bodily forms. This initiates the blue realm of transFORMATION, and the intensity of 10 consecutive portal days!! As we enter the Serpent portals, positive potentialities abound. The arrival of the Full Moon in Taurus invites us to actively enjoy the utter deliciousness of this precious Human embodiment. Then comes the Conception Day for what will be born in us next new year ~ Serpent Wizard Manifesting through a portal...

As we emerge from the portals, Mars in Capricorn activates the impending Uranus Pluto square, demanding a strong practical application of our energy and effort, that can be defined and measured. This focused embodiment, combined with a faceted reflecting profusion of momentary astrological transits as we enter the **Mirror** wave, shifts our perceptual experience of the form of reality.
