

Moon 10 ~ Moon of Manifestation

Dragon's Wizard Hands make Manifest

during our 9 Dragon Moon Realizations Year

Dragon births the living of what is, in balanced relatedness, by the light of a partially-eclipsed Full Moon in Libra. Now we walk and talk the 9 Dragon Moon Realizations of this year. The Real becomes Manifest as what is. This new 260-day birth of Manifestation round will carry us into the 10 Serpent Wizards Manifesting year. It's all about truly living "what is." Another sign that this is a time of new beginnings, is that Uranus and Pluto move beyond 1 degree apart, where they've been since late November, for the final time after 7 passes over 3 years! While they're still close, the internal tensions demanding revolution will begin to wane. Now, we live what's come of the revolution as our lives.

It's time to show up with ease, manifesting as **Wizards**, enjoying the unknown, being guided by what's unfolding, and shapeshifting to meet the moment, effortlessly. Everything needed in each moment, is present in that moment. Be a timeless magical being.

Our **Hands** make manifest, and directly and tangibly relate us to life and everything under the stars. Make something beautiful!
