

# Moon 13 ~ Moon of Freedom

## **Storms move Humans like Serpents towards Freedom**

during our 9 Dragon Moon Realizations year  
toward a year of 10 Serpent Wizards Manifesting

As Venus shines with Jupiter by the heart of the Lion, bestowing blessings upon us all, an energetic **Storm** activates our spinal columns and nervous systems, moving us in a serpent dance through the cosmic gate towards freedom. If you encounter a disturbing storm, know it's trying to free you to live the goodness of self-love, creativity and irrepressible enthusiasm for life. Learn to breathe, attune to, and move with this energy rather than being overwhelmed or agitated. The Full Moon in Capricorn shines thru an 11 Moon night near the end of this Moon year. We're immersed in the all-that-is of possibility, while full of the earthed living of it.

Now we're free to be truly **Human**, which is not like what we've been told. This is being cosmic Humans, the meeting of earth and sky, in continual communion with the all-that-is, while in authentic connection with each other! Beginning on Independence Day no less. A self-nurturing New Moon helps ready us for a big new year!

The slivered Moon shines with Venus & Jupiter as sensual **Serpent** coils, an ouroboros biting its tail at the end-beginning of the year, embodying eternal cyclic renewal, opening a portal that initiates the transformation of what is, and re-creates us as free beings of great vitality that we may manifest as Wizards in the year to come.
