

Moon 10 ~ Moon of Manifestation

Serpent Mirror Monkeys Manifest

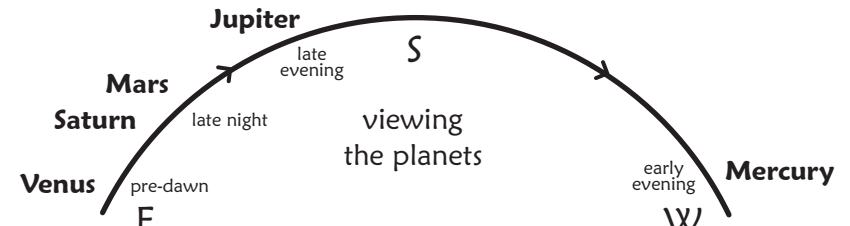

during our 10 Wizards Manifesting as Serpent Portals year

A **Serpent** portal emerges, becoming fully manifest over the course of the 10 open portal days that carry us into the living of Moon 10, bringing us back around to the 10 Wizard day in the Serpent wave that initiated this entire year. Now, we mature into beings who can effortlessly walk and talk the ongoing transformational vitality of our Serpent Wizardry as What Is. In celebration, the 8th visit of the waning Moon with Venus just might show it's face, reminding us that the field of our energetic body extends well into the earth. We're able to bring cosmic energy down and through us into Life.

The number ten's two solid lines of selfhood set off reflections in the **Mirror** so strong that **Mars in Sagittarius goes retrograde** along with Pluto, to begin the Mirror wave, then **Mercury in Taurus goes retrograde** on the last day of the Mirror wave, the 13 Dog day that stands at the crossover center of the Tzol'kin, the moment of transformation. A transfiguring transformation becomes manifest through reflecting upon and revising how we think about and communicate our lived embodiment. Incorporate Enjoyment!
