

# Moon 12 ~ Moon of Integration

## **Earth Dogs roam the Night Integrating**

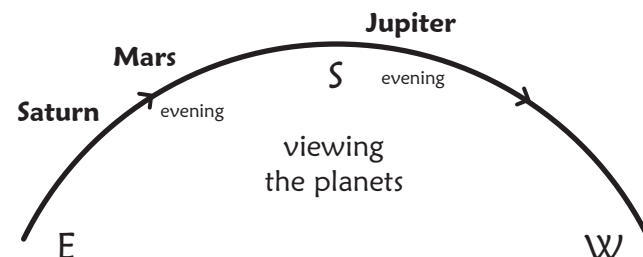

during our 10 Wizards Manifesting as Serpent Portals year

Integrating directionality as a navigational aid in our **Earthed** experience is of great value when living on shifting ground that requires continual adjustment during the **Mutable Grand Cross** at the beginning of this Moon. Do you know where you are within the directions, in this moment? Ripen into being at home on earth as you make your contributions to the world. Communicate from here.

Amidst **Saturn square Neptune**, be solidly present in the dissolving, like relaxed **Dogs** in a puppy pile or bounding around with those you love, doing what you love. Noticing who and what we love is a guiding divination, taking us beyond why, into our deepest knowing.

The Full Moon in Sagittarius flies like a flaming arrow through the **Night**, igniting the Summer Solstice sunrise, as Mercury articulates the Mutable Grand Cross. This call for big changes flows into the **Jupiter Pluto trine** where it crystallizes an expansively deep transformation within us having to do with the story we tell the world through how we live. By being at home within ourselves and the universe, a cherished dream can move through us into the world, bringing the possibility of greater freedom.

- 6/1-6 **Mutable Grand Cross** as the Sun and Venus square Neptune and Jupiter and oppose Saturn
- 6/4 **New Moon in Gemini** (also in Grand Cross)
- 6/7 Mercury leaves retrograde shadow
- 6/12 Mercury into Gemini
- 6/13 Neptune goes Retrograde until 11/19
- 6/17 Venus into Cancer
- Saturn square Neptune** - 2nd of 3 times
- 6/20 **Full Moon in Sagittarius**  
**Sun into Cancer ~ Summer Solstice**  
Mercury opposes Saturn and squares Neptune
- 6/22 & Mercury square Jupiter - **Mutable Grand Cross**
- 6/26 **Jupiter trine Pluto** - 3rd of 3 times

**Saturn retrogrades over Antares, the heart of the Scorpion all moon Saturn at it's brightest, rising as sun sets**

6/10-11 Moon with Jupiter

6/16-17 Moon with Mars

6/18 Moon with Saturn near Antares
