

# Moon 8 ~ Moon of Action

## **Sun Skywalks as a World-Bridger in Action**

during our 10 Wizards Manifesting as Serpent Portals year

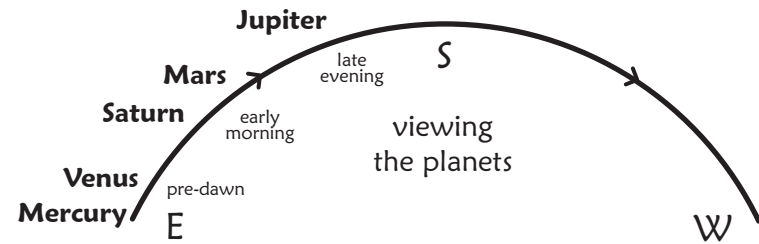

We ripen into living as **Suns** through actively and continuously giving our gifts and showing up. All five visible planets gather in the east to celebrate this dawning. The New Moon in Aquarius comes on the 12 Monkey portal day, bringing the **Chinese New Year of the Fire Monkey**, on a Monkey day! It's a year of being passionate and adventurous, of shining confidently, enjoying groups of humans, and initiating integrative experiences.

Now that we're all fired up, it's time to embark upon living our lives as a **Skywalking** journey. This refines the revolution that Uranus square Pluto continues to demand, through a shift in how we take action and from where in our beings, especially in meeting the world beyond ourselves. It's not about tasks to complete, things to do, or being busy; it's time for living the adventure!

The Full Moon in Virgo on 13 Serpent shines us into the refining whiteness of the **World-Bridger** wave. During this liminal zone experience, **Jupiter opposes Chiron**, inviting us to show up as practical mystics, and to mentor generously that all involved might benefit, living our gifts rather than our wounds.
