

# Moon 11 ~ Moon of Liberation

## **Eagle Stars release Dragon's Liberation**

*during our Moon Storm Liberations year*

The 11th Moon of this 11 Storm year brings the energetic liberation of our experience of self, as independent **Eagle** flies us up to the next level. After a few weeks of retrograding over familiar ground, **Mercury in Aries goes Direct**, challenging us to release our petty annoyance around what's been dissonant and move on. The potent light of the **Full Moon in Scorpio** arises from the deep, lifted on Eagle's wings, to be carried aloft through the vast expanse of night.

The sparkling **Stars** dance in their courses, revealing the patterned story that guides us as we ripen into living the magic, into trusting the flow between the slow integrating time of **Saturn trine Uranus** with its liberating unexpected sense of timing.

The Moon comes by for the second divestment, and Venus lays down the scepter and experiences a direct pineal activation, initiating the integration of the liberation that will be with us for many months to come.

**Dragon** births a whole new 260-day Tzol'kin round, born in this Moon of Liberation which will carry us through the remainder of this year of Liberation and well into the year of Integration. This is the big release of a cosmic orgasm, **Liberation of the Liberation**, as we merge with the universe, which becomes a new form of integration.
