

# Moon 13 ~ Moon of Freedom

## **Hand lifts Sun into Skywalking Freedom**

during our 11 Moon Storm Liberations year  
toward a year of 12 Skywalking Seed Integrations

We reach out our **Hands** and open the cosmic gate into the freedom of the All That Is, and by the light of the Moon and Jupiter, a Stormy portal day slips through as this Storm year moves beyond...

The clouds part and the face of the **Sun** comes out in full radiance, generously bestowing warmth and light, that all might grow and flourish. Attune to the world-bridging **Full Moon in Capricorn with Pluto**, and the freedom that comes from being dedicated to what's ours to do. It transforms us into strong, worthwhile beings.

Journeying freely as **Skywalkers**, we're refining the reverberations of the recent liberating release, through exploring the open cosmic gate of dimensional possibility. The Moon visits Venus for the 4th divestment. The mirrored amulet that has protected our heart is relinquished, and we stand in the open portal attuning to the approaching storm. When it passes, then, the Sun comes out to be joined by the **New Moon in Leo**, and we revel in the warmth of our enjoyment of the journey of life.

The **Day Out of Time** offers a liberating homecoming dream of dimensional Skywalking in the All That Is, through which we enter a portal that Seeds the integrative journey of the new year...
