

Moon 2 ~ Moon of Relatedness

Eagle Stars and Dragon Wizards Relate

during our Moon Storm Liberations year

The **Eagle's** wings lift us to soar freely, like a **Star** in the sky, where we can see Mars move between Saturn and the heart of the Scorpion, while in the west Venus, Jupiter, and Mercury make a triangle just above the horizon. Everyone is actively relating! It's written in the stars. We're being invited to let the sky story guide us in relatedness.

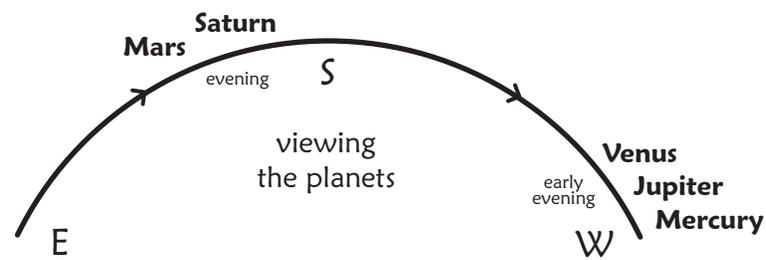

Mercury goes Retrograde right before the **New Moon in Virgo Solar Eclipse** that creates a **T-square with Saturn and Neptune**,

offering a time for reassessment and a reset of our approaches to relatedness. It's time to get real. Stay present within the trance, following your divinatory arrow as a way of relating with all of life.

The Moon visits Venus & Jupiter for the second vestment, conferring a girdling belt, as the flow of sacred service becomes daily life. Then Venus visits Porrima, the Goddess' heart, as we **Dragon Birth** a New Relatedness, to be embodied thru this new 260-day Tzol'kin round.

Jupiter moves into Libra for a year, bringing an expansive journey of relatedness through courting beauty. Relatedness as a central theme is beginning now, and will be with us throughout the year! **Saturn square Neptune** is exact pass leading up to the **Full Moon Lunar Eclipse in Pisces with Chiron**, reminding us to live our gifts rather than our wounds. The challenge is to show up as **Wizards** in relatedness...
