

Moon 3 ~ Moon of Motion

Wizard Hands dance the Sun's Motions *during our Moon Storm Liberations year*

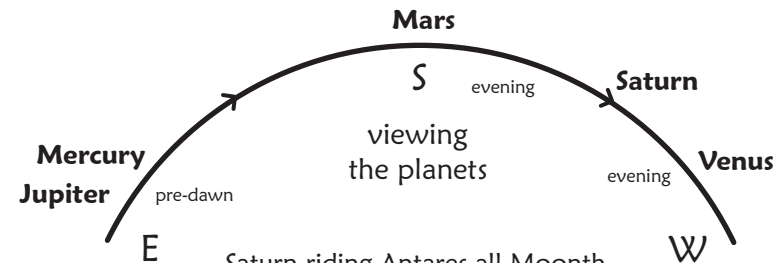

Wizards move from relatedness into relating, where the third thing, beyond twoness, emerges through a shapeshifting dance of following and trusting the moment. We have everything we need to move and relate effortlessly and magically as life calls us forth...

As Wizards dance to the natural rhythms of the zeitgebers, Mercury goes Direct in Virgo and then the Sun moves into Libra on the Autumn Equinox. Notice the horizon places of the rising and setting of the Sun on this day marking directly east and west, as the Wizards of old surely would have.

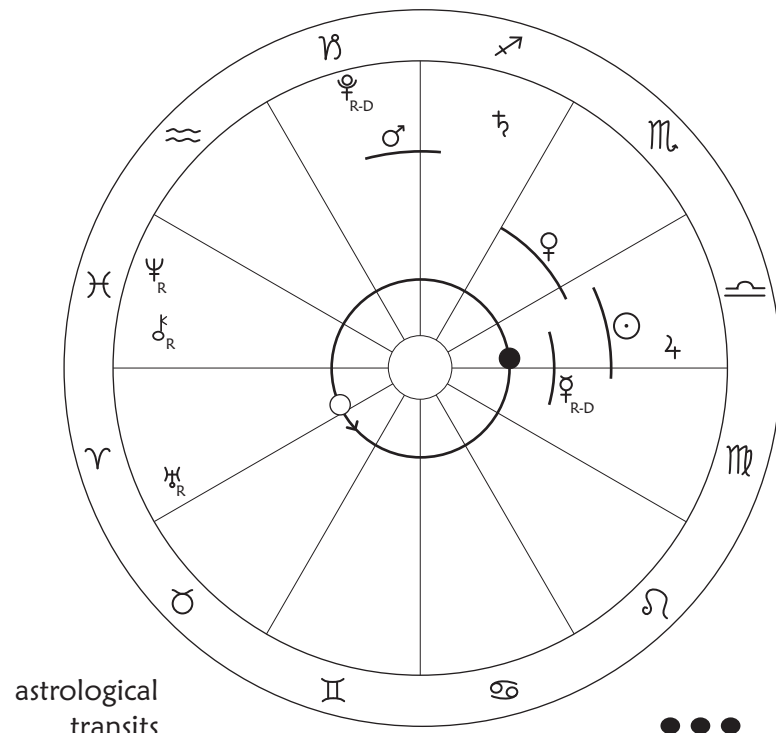

As the waxing Moon emerges from a brief dalliance in the dark with Jupiter, our **Hands** come alive, moving to caress and heal, craft and shape. This is a time of hands-on relating. As the Moon visits Venus and Zubenelgenubi (a claw of the Scorpion), Oct 3rd, raise your hand to receive your 3rd chakra-strengthening ring of power, the third vestment of Venus. Then Mercury leaves its retrograde shadow and joins the Sun and Jupiter party in Libra, forging new paths in conceptualizing and articulating relatedness.

The **Sun's** balanced motions of day and night, shining and restful darkness teach us how to ripen into this new beginning of relatedness, as does the Full Moon in Aries galavanting with Uranus through the night as they spark passionate presencing...
