Moon 4 ~ Moon of Form

Sun Skywalks into World-bridger Form *during our Moon Storm Liberations year*

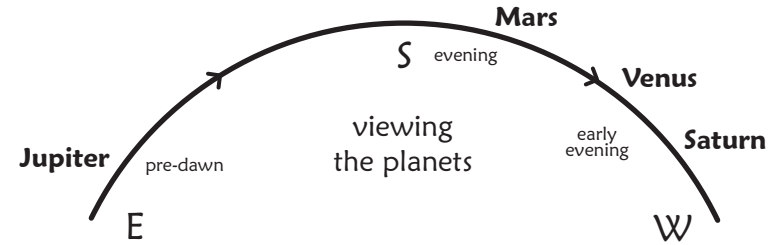

Storied living becomes the form as Jupiter emerges from the underworld in communion with the heart of the Goddess, while Venus blesses the head of the Scorpion. May spirited reverence inForm our ripening into bestowingly shining, like the **Sun**, with our full radiance.

The **Skywalking** adventure continues as Venus proceeds in an exultant yet stately manner between Saturn and the heart of the Scorpion, joined by the Moon who confers a Mirrored amulet upon Venus's heart, the 4th vestment. Perhaps love's heart-visiting journey will be of a reflective, slow and steady, bounded form.

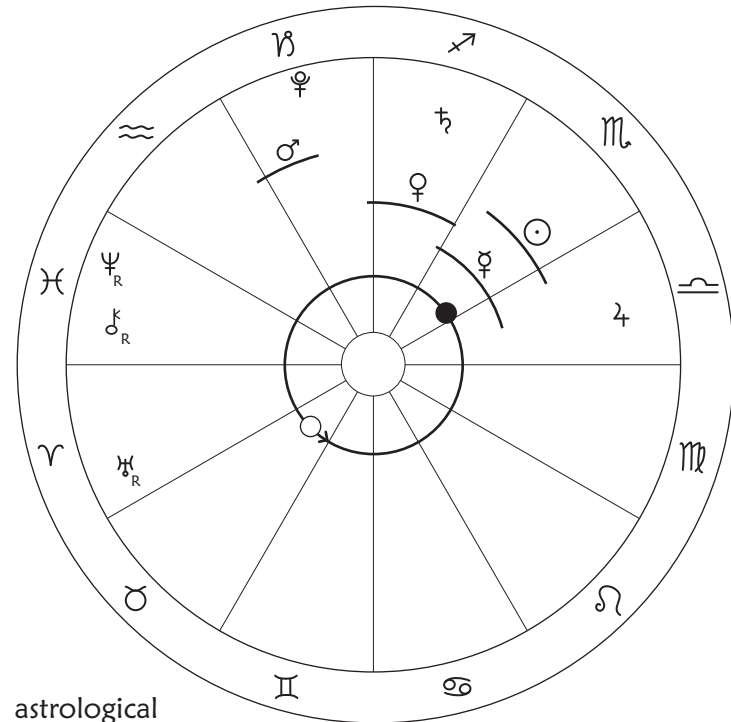

The Conception Day for next July 26th's New Year arrives on Nov 8th, the 12 Seed portal day in the Skywalker wave. The integration of our organically-growthful journeying experience begins now.

We become more refined through learning the ways of the **World-bridger** whose surrendered and humble form brings great liberation. May the formless be the form as we learn to reside in the threshold between worlds. Take pleasure in this liminal zone experience as the Taurus Full Moon shines brightly on the 5 Dog day and we scamper into Moon 5 ready to become new selves.
