

# Moon 5 ~ Moon of Selfhood

## **World-bridging Storms bring Human Selfhood** during our Moon Storm Liberations year

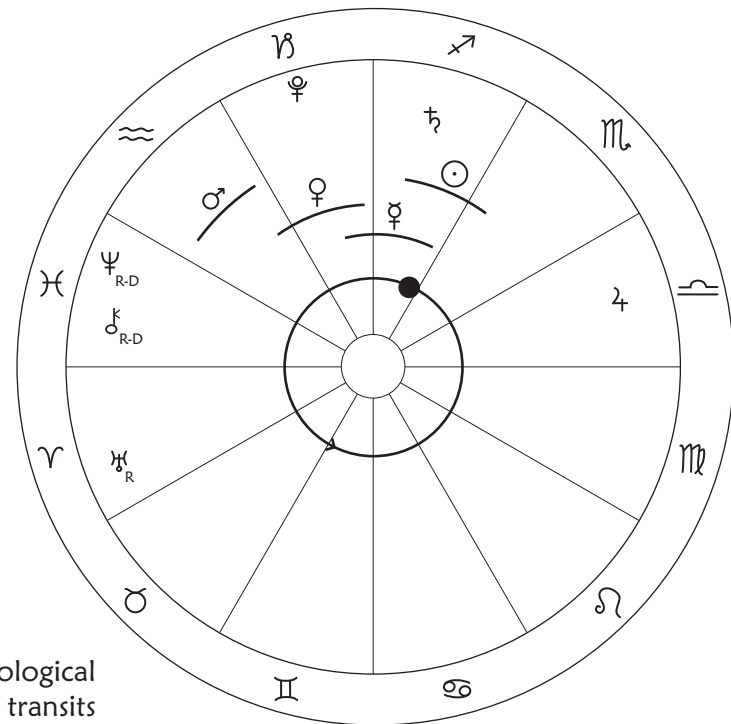

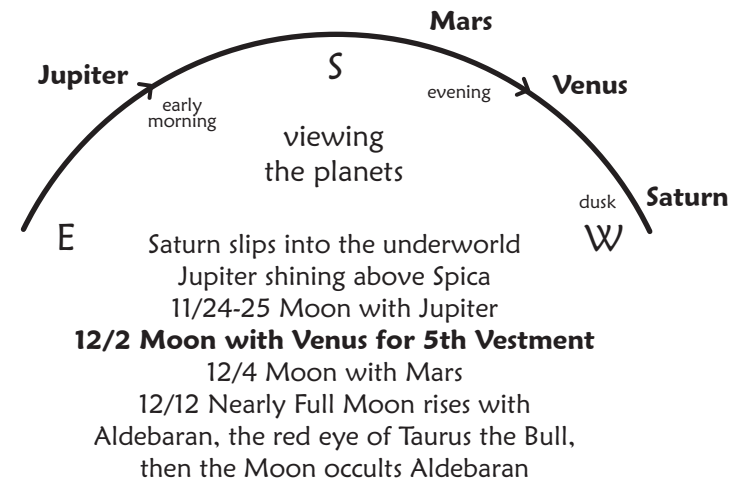

Monkey's tricks serve the humbling of **World-bridgers**; such irony that surrender and dying to who we've been enables us to develop a more refined and lightly-held sense of self that's capable of bridging worlds, which offers the possibility of new ways of openly relating.

Next up for our newly developing self comes an energetic activation that establishes new neural pathways in our bodies as we **Storm** into Selfhood in this Moon Storm Liberations year's only Storm wave. The **Moon with Jupiter in Libra squares Pluto with Venus in Capricorn** as we gather to give thanks, demanding that we find a way to take action that honors both the embodiment of fairness, balance, and diplomacy as well as allowing for a deep structural transformation in how we show up in love. The unexpected may well spring into being. Cherished traditions will likely be revolutionized!

The Moon offers Venus a star-sparkling portaled necklace for the 5th vestment, through which self-expression gains cosmic depth.

Freshly energized and catalyzed, we become **Human** selves, invited to experience and enjoy the opportunities that come from embodiment. This is a time for receiving and gathering resources. Look to the nearly Full Moon as it winks the red eye of the heavenly Bull, shining us into Moon 6 as we newly meet the world beyond ourselves.
