

# Moon 6 ~ Moon of Balancing

## Human Serpents Mirror Balancing

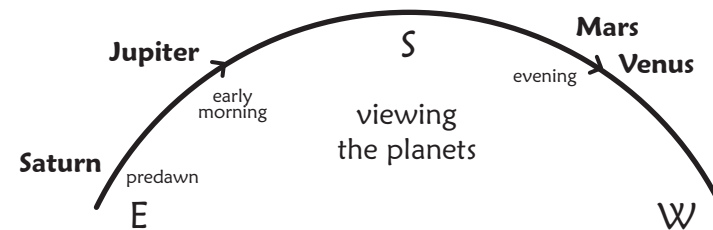

during our Moon Storm Liberations year

A living Storm carries us into Moon 6 where we experience our new energetic **Human** selves meeting the world beyond ourselves in an ecstatic balancing dance by the light of the Full Moon in Gemini.

The energetic transformation now undulates even more deeply into our embodiment, creating new neural pathways through the 10 portal days of the **Serpent** wave. With Mercury going retrograde, it's time for re-viewing and re-visiting, the Ouroboros of the serpent biting it's own tail. Amidst the Serpent portals comes an intensive cluster of newly emerging astrological transits. **Saturn in Sagittarius trine Uranus in Aries** gets the party started as we bust out of our old skin, becoming more spontaneous and expressive. **Jupiter in Libra opposing Uranus** suggests that we be courtingly attentive to our dance partners. With **Venus connecting everyone**, it's an opportune moment for love where we can be our unique selves meeting others and life. **Saturn squaring Chiron in Pisces** reminds us to dedicately live from our guidance rather than holding onto old wounds. **When the energy gets too much, dance it through!!!**

Our perceptions shift and are given a new spin as the **Mirrored** ball drops for the New Year. The Moon visits Venus, bestowing a jeweled-scepter pineal activation of sovereignty. Then Mercury goes direct as the serpent slithers toward the Moon of Attunement...
