

Moon 10 ~ Moon of Manifestation

Skywalker Worldbridges a Storm of Manifestation

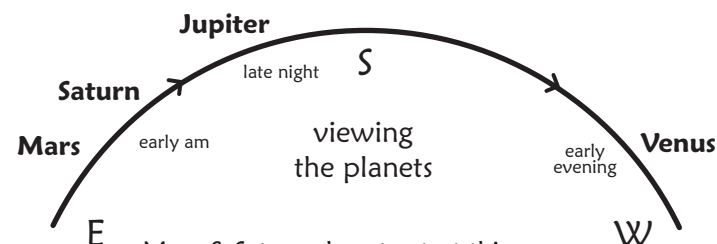

during our Year of Skywalker Seeding Integration

Skywalking becomes *What Is*, us dimensionally journeying in life. Our abilities have developed over this year of *Skywalker Seeding Integration*. Look up & see the Moon with Mars & Saturn, a living reminder to be at home, here on earth, in the cosmos. The **12 Seed** day from our new year last July comes around again as a Walking & Talking day. We now know how to allow the natural unfolding of growthfulness in its own time. We're seeding the 12 zodiac signs in our beings as we move through the year, creating in ourselves a zodiacal portal that will continue to mature, year by year.

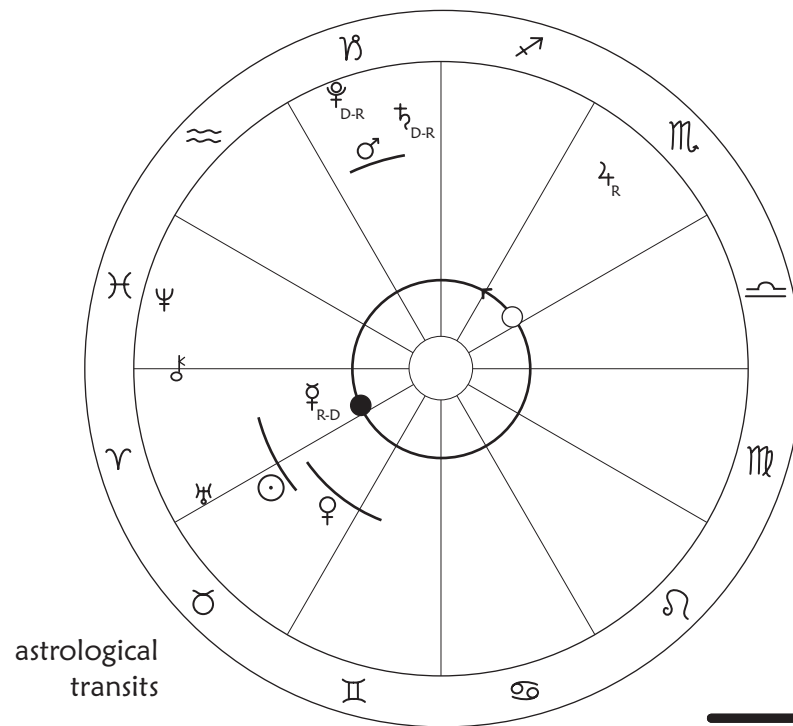

The liminal zone threshold between worlds is where we reside as **Worldbridgers**, connecting & manifesting the seeming here & there, now & then, into *This*. With **Jupiter in Scorpio sextile Pluto in Capricorn** we must die to who we've been, which matures us, and opens us to deep transformations in our beings. Aries is home to the New Moon, **Mercury going direct**, and the arrival of **Chiron!!** Seeding in the liminal zone refines our action orientation, shifting us out of living & acting from our wounding to humbly living our gifts. Moon visits Venus near the Pleiades for the 2nd vestment, conferring the belted girdle of pleasure. Ahhhh

The Scorpio Full Moon shines with Jupiter amidst an activating **Storm** that stirs the deep. Feel your potency being awakened!
