

Moon 12 ~ Moon of Integration

Serpent Mirroring Monkey Integration

during our Year of Skywalker Seeding Integration

In this Year of Integration, we now enter the Moon of Integration, ushered in by the Moon visiting Saturn in Capricorn, a very strong stabilizing and solidifying force. Coming in the **Serpent** wave, this brings a time of grounding & integrating vital energies into our bodies in a more substantial way. Move w/ subtly undulating power & grace.

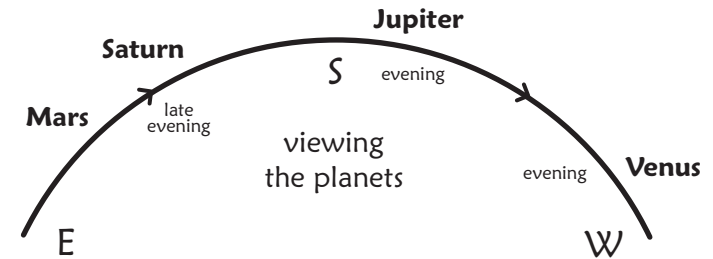

Jupiter with Zubenelgenubi, the Claw of the Scorpion, hands us a many-faceted **Mirror**, dancing reflections from its many faces seeding in us the ability to perceive many different truths, all at the same time. Moon visits Venus for the 4th vestment, conferring a protective mirrored amulet for our hearts, one that reflects the world back to itself, rather than our taking everything in and living as the reflection!

Knowing our own hearts brings us to a **Moment of Transformation** at the center of this 260-day cycle through the 13-day waves, one that began in the Moon of Action. Our new way of being in action, and of taking action from a different place in our beings, crystallizes.

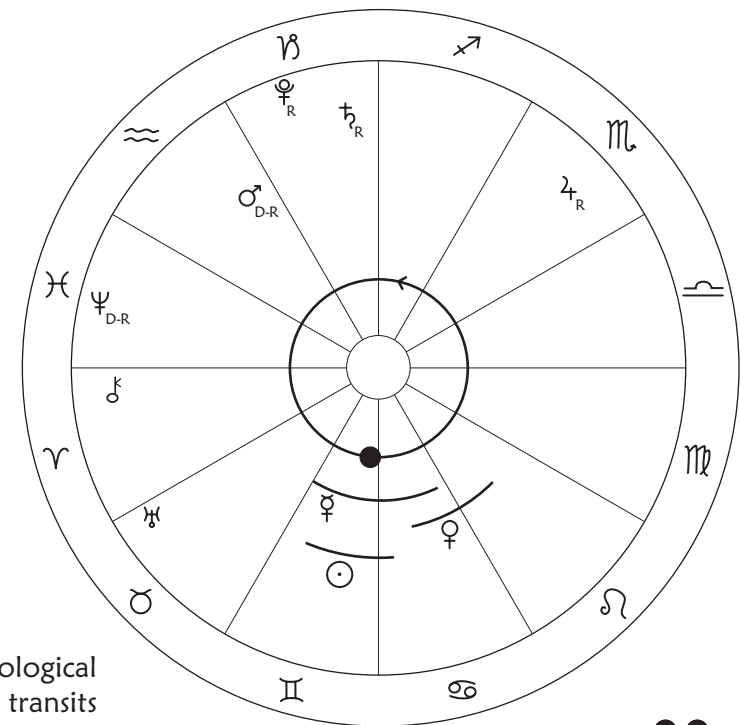

Monkey takes action, playfully exploring & discovering on these long summer days, teaching us that following our curiosity can guide us in these new ways of being in action. Life becomes craft, integrating us in the making. Neptune is turning retrograde, so keep an eye peeled for Trickster to point out any illusions we've been operating under!

The planet of action & embodiment turns its attention inward for two months as **Mars goes retrograde in Aquarius**. This will be a time for re-grouping around our action orientation as we move to more deeply re-integrate our sense of freedom & independence. Be an original!

- 6/12 Mercury into Cancer
- 6/13 **New Moon in Gemini**, Venus into Leo
- 6/17-18 **Moment of Transformation** - Center of Tzolkin
- 6/18 Neptune goes Retrograde until 11/24
