

Moon 2 ~ Moon of Relatedness

Humans and Serpents Mirror Relatedness

during our Year of Skywalker Seeding Integration

Human Relatedness is our challenge this year, to learn to actually bring our multidimensional, growthful **Human** selves into authentic connection with other Humans and all of life, moment to moment, embodied and present.

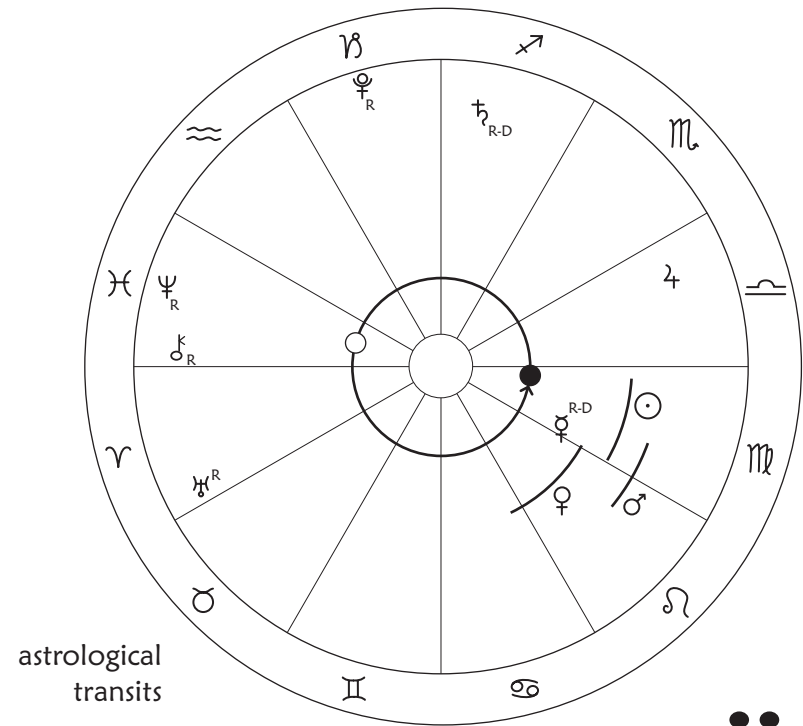

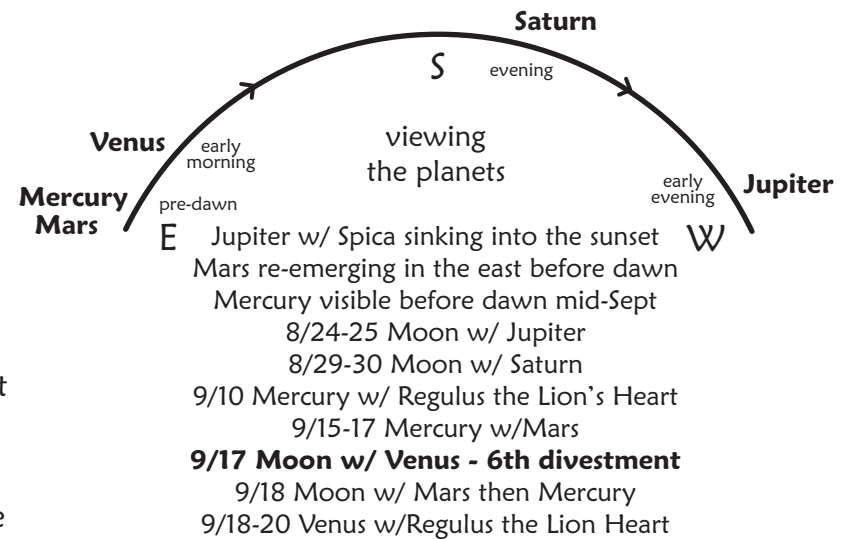

The positive potentiality of **Jupiter in Libra sextile Saturn in Sagittarius** arrives on a 5 Warrior portal day, as these social planets invite us to strongly live our way and place in the world, with respect and dedication to aspirational exploration.

Mercury dances retrograde then direct, coming together with Mars in Leo (near the recent eclipse point!) then later Virgo, bringing active (rather than reactive), embodied thinking and communication that has the drive and focus to move creative inspiration into tangibility.

By the light of the Full Moon in Pisces, **Serpent** spines the Human, bringing cosmic vitality down and through us into this world, transforming us, as each day becomes a portaled vertebrae, opening and vitalizing our bodies and beings. Sensual relating with life undulatingly dances us as the waning Crescent Moon visits Venus in Leo (near the recent eclipse point Heart of the Lion!) for the 6th divestment. We drop the girdling belt, simply allowing flow.

The Virgo Moon next meets Mercury and Mars, then goes dark, an obsidian Mirror traced by Storm. Plant your second Seed.
