

Moon 4 ~ Moon of Form

Seeds planted in Earth take loving Dog Form

during our Year of Skywalker Seeding Integration

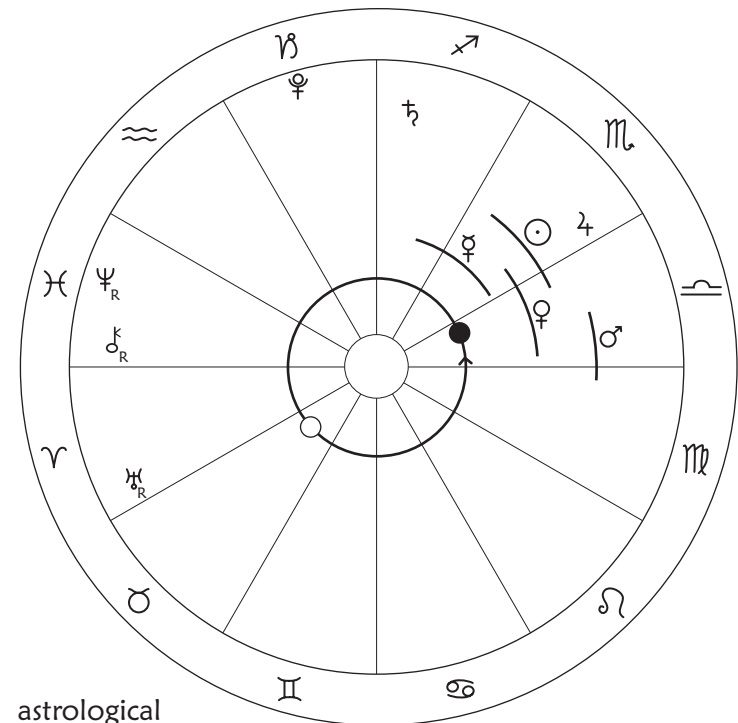

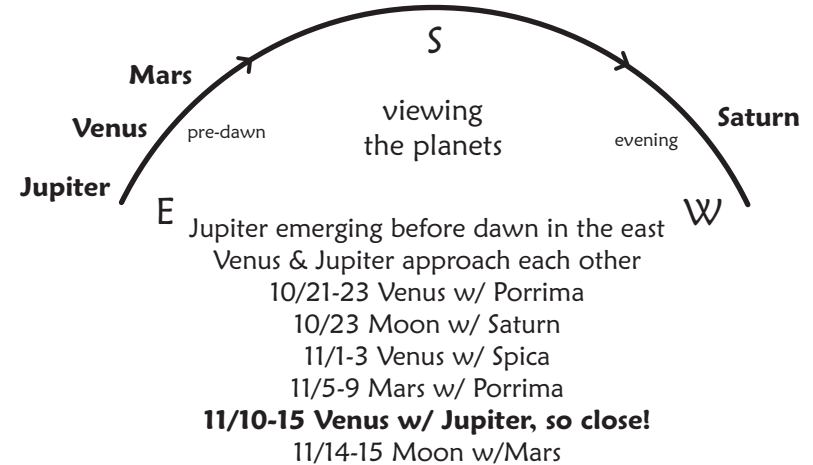

The **Seed** portals continue, bringing this 12 Seeds year into form. During the **New Moon in Libra opposing Uranus in Aries**, comes the seeding of a new form of balanced relatedness, one that includes our magnificent uniquenesses, inspiring Venus to approach and lovingly caress Porrima, the heart of the Goddess, on her way to a predawn rendezvous with Jupiter.

Liberated from planning and efforting as our way of bringing the next level into form, living well on **Earth** now happens through navigating by synchronicity, even as the ground shifts. **Saturn in Sagittarius squares Chiron in Pisces**, a reminder that divination, ancestors, and the living of our gifts guide us on this journey, while a visit to Porrima's heart stills the restlessness of Mars.

The 13 Moon day that closes this Earth wave on Nov 8th is the **Conception day** for next new year, which will be the last year of a 13-year Moon journey that began in 2006, a journey of learning to live the rhythms of waxing & waning, of phases & signs.

Like a joyful **Dog**, loving what we do & who we do it with ripens us into living a harmonious flow between time & timing, a fiery, seriously spontaneous, happy dance with **Saturn in Sagittarius trine Uranus in Aries**, just as Venus and Jupiter reach each other in an expansive deeply Scorpionic embrace. So many forms of love!

- 10/19 **New Moon in Libra exactly opposing Uranus!**
- 10/22 **Sun into Scorpio**, Mars into Libra
- 10/26 Sun conjunct Jupiter
