

Moon 8 ~ Moon of Action

Star Dragons with Wizard Hands in Action *during our Year of Skywalker Seeding Integration*

By the light of the Moon & Jupiter, we pass through a gateway portal at the top of the mountain, between our Sun **Star** and **Dragon**, birthing us into **Action**. For the next 260-day round of 13-day waves, we walk our new attunement down into the world and our lives as selves in motion, living what we believe. No retrograde planets turn us back, nor big transits push us on. It's simply time for taking authentic action from deep within our beings. The Moon visits Mars, and we take embodied action. The Moon visits Saturn, and we dedicate ourselves to doing what's ours to do, with authority. Dragon nibbles on Sun during a partial Solar eclipse in Aquarius, taking us into the **Chinese Year of Earth Dog**, a time for seeding with humanitarian actions & innovative offerings. We're asked to be serious & responsible, to do the work, making our own way & fortunes, while having a constructive social influence.

Wizard dances, shapeshifting as it goes, reminding us to trust our ability to meet each moment with ease through effortless action. This is real magic, to move with the moving, to work with what's wanting to unfold.

Venus returns to the west as the Evening Star just after sunset. We reach out an acknowledging **Hand** in welcome.
