

# Moon 9 ~ Moon of Realization

## **Hand offers to Sun and Skywalking is Realized**

*during our Year of Skywalker Seeding Integration*

The birth of taking action in new ways, and from new places in our bodies and beings, becomes **Hands-on**. We can see, tangibly, what comes of our crafting, shaping, and touching. This is quite different from getting things done or operating upon them. It's more of a collaborative emergence approach, to which we offer our selves, that makes real. If you're up before the dawn, see the Moon with Jupiter, then Mars, then Saturn. Embodying is definitely happening! In this seeding, we reach out and touch the ineffable. Moon visits Venus, newly returned from the underworld, for the first vestment, handing over root chakra robes amidst the portal of a freeing storm, with nearby Mercury having something to say about it.

At equinox, the **Sun** comes forth in Aries, springing anew, warming up and shining a light on what's emerging. Also, **Mercury goes retrograde in Aries**, so the awakening impulse to push, and ram things through, may be strong in multiple directions! Mars is approaching Saturn in Capricorn, so give these two work horses something big to do, each day. Hard work is good, and good for us. We become more real in the process.

By the light of the Full Moon, we return to the **Skywalker** wave, in this year that began in the Skywalker wave, as Mars conjoins Saturn. In a very grounded and practical sense, we are living and journeying in more dimensions, and thus refining our experience of reality. The Moon & Jupiter guide and carry us into what's next.

- 3/8 Jupiter goes Retrograde until 7/10
- 3/17 **New Moon in Pisces**, Mars into Capricorn
- 3/19 Mercury conjunct Venus
- 3/20 **Sun into Aries** ~ Spring Equinox
- 3/22 **Mercury goes Retrograde** until 4/15
- 3/30 Venus into Taurus
