

# Moon 2 ~ Moon of Relatedness

## Warrior with Moon and Wind Relating

during our Year of Earth's Moon Freedom

**Warrior** strides into meeting the challenge of relatedness, here on the ever-shifting body of Earth, ripening into the living of gentle strength and engaged presence with respect for all of life. **Saturn grand earth trines Uranus and Sun**, while the Full Moon shines in Pisces, and Mars goes direct. We're invited to be direct, actively living and expressing with a strongly-rooted sense of our own authority and uniqueness, even as we meet the ineffable.

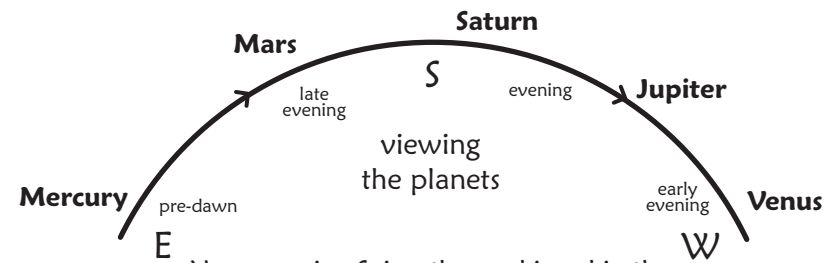

**Moon** ushers us into the realm of Magic, embodying the inexorable dance of constant relatedness with ever-changing faces. **Saturn, Uranus, and Mercury** make their grand Earth trine, as Saturn stations direct. Meet the challenge of tangibly flowing with time & timing, the structured & wildly spontaneous, in thought & expression.

Moon waxes to a crescent, joining Venus (at its brightest) in visiting the seed jewel in the hand of the goddess for a crowning 7th vestment. Then, Moon moves on to the claw of the Scorpion with **Jupiter sextiling Pluto**, on a transformative and expansive journey of stepping into our own power and potency with authority, in relating and meeting challenges, as the phases and tidal shifts unfold.

**Wind** reminds us to breath in & out, in & out. Words are magic in relatedness with all of life. Every utterance a moonlit prayer, visiting Saturn, then Mars...
