

● Moon 1 ~ Moon of Purpose

Wizard Hands hold Sun Purposefully
initiating our Year of Wizard Originating

Wizard Originates, journeying well, inspiredly embodying the flowing fiery energy of Mars in Leo trine Jupiter in Sagittarius, as Jupiter rides the red pulsing heart of the night-sky Scorpion.

With five planets & Chiron retrograde, this is a multi-directional dance, nothing straightforward about it! Mercury soon stations and turns direct in Cancer, pirouetting on/in our Earth/body home origins.

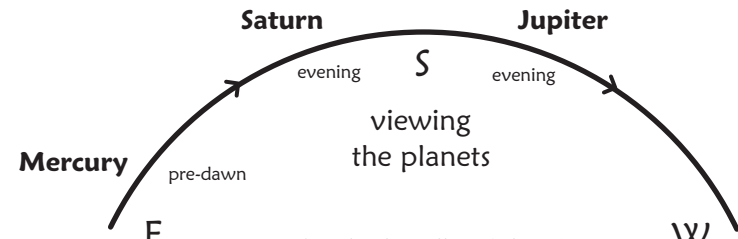

New ways of doing and accomplishing emerge as Wizard **Hands** touch, craft, heal, shape, hold, and make, freely bringing tangible transformations through effortless, hands-on engagement with life.

Full Moon shines in Aquarius on the 8 Wizard day, a day for stepping more fully into living and embodying our Wizardry. Opposite Moon, Venus & Mars approach one another, hidden in Sun's glare, for a tryst.

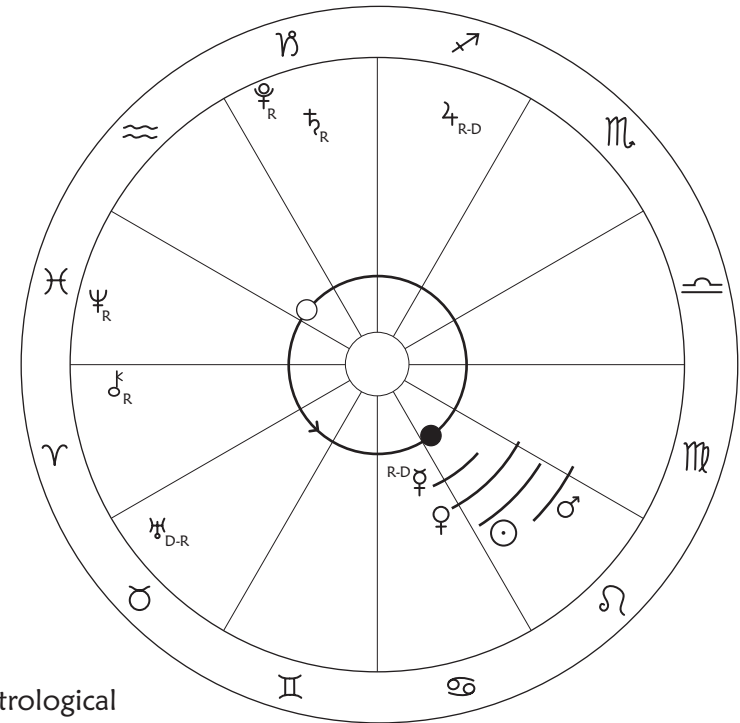

Mars entering Virgo brings an opportunity for being in our Wizard Hands more masterfully, a time for sharpening and honing our skill. Venus soon joins Mars in Virgo, a meeting in deep service to making beauty and honoring the sacred in all. Personal and social planets are strongly present this whole year, learning to orient in service to spirit.

Wizards Hands hold lightly the fiery ball of **Sun**, fluidly dancing through shifting forms with ease and grace, absorbing vitality.
