

# Moon 6 ~ Moon of Balancing

## **Seeding Earth as Dog Balances** during our Year of Wizard Originating

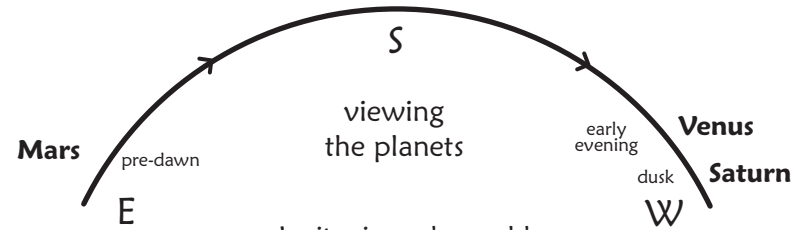

The growthful **Seed** portals continue transforming us as our newly being liberated Wizard self meets the world beyond the self. Lingering **Jupiter square Chiron** tensions tame our most impulsive expressiveness, so we can more maturely meet our teachers.

The balance tips toward the earthy realities of **Jupiter in Capricorn trine Uranus in Taurus**, serious journeying amidst unexpected blessings brings the ripening of our Earthed freedom. Even as **Earth** is shifting deeply, Wizard navigates by synchronicity, the signs being shown all around, balancing amidst the quaking of our foundations, ripening in and through meeting the world as it is.

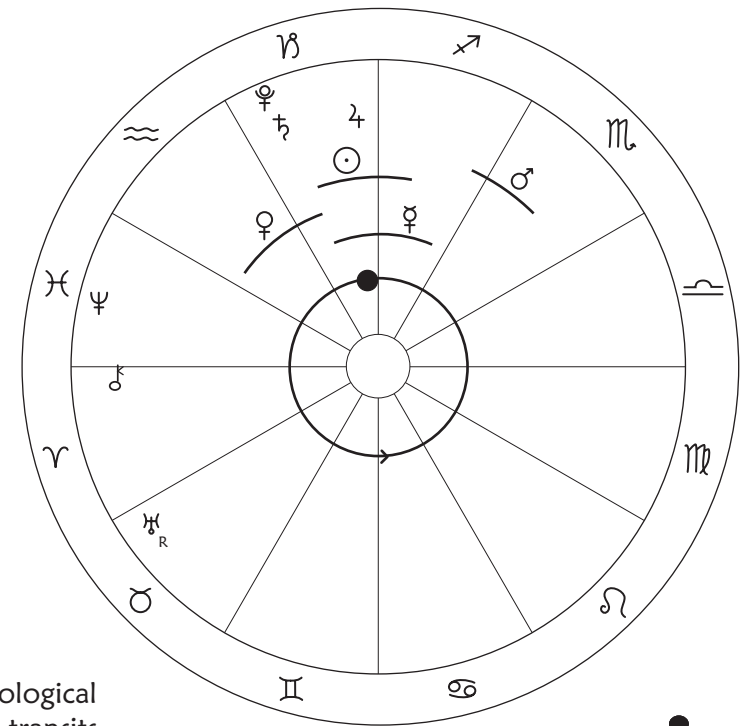

Sun joins the party in Capricorn on Winter Solstice, then gathers with Moon & Jupiter for a **Christmas eclipse** on a 10 Worldbridger day. Something dies to this world. But, maybe that's a good thing. As we feel the strength of the **Saturn-Pluto conjunction drawing near**. An even more foundational death/rebirth approaches.

Moon journeys on to visit Venus for the 3rd vestment, conferring a ring of power, the power of freedom to love. **Dog** is all about meeting the world with love, in both who we love and what we love to do! With Saturn-Pluto presiding over the "new year," this is not about making goals/intentions for what we want, but noticing what Life is inviting us into. Be willing to die to who you've been.
