

# Moon 8 ~ Moon of Action

## **Moon shines & Wind lifts Eagle into Action**

*during our Year of Wizard Originating*

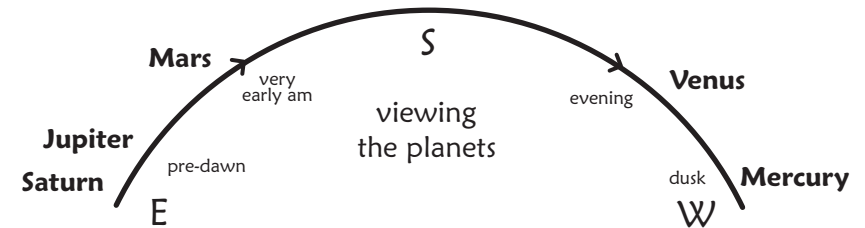

**Moon** shines big and bright as we begin to walk our new attunement down the mountain of the year, living the magic of our freedom in action. Things feel different now!

There's an indolence and slowing down into the storied life as **Mercury Retrogrades in Pisces** & the Sun arrives in Pisces, along with the newly emerging transit of **Jupiter in Capricorn sextile Neptune in Pisces**. How to be in action while the infinite dreamy waves quietly sway us? Perhaps with less active thinking and doing, and more finding our way with spirit & allowing and working with what wants to unfold. There is positive potentiality for a new subtle confidence to emerge through living our dreams.

The breath of spirit moves as **Wind**, breathing through us, becoming our speech & song, our lived prayer in every moment. The magic of what we speak into life is our freedom expressed. Moon visits Venus for the 5th vestment, placing a delicate necklace at the throat, that beauty might be known and spoken.

Lifted by Wind, and Mercury moving back into Aquarius, **Eagle** rises into flight, seeing from new perspectives with freedom of the skies.
