

Moon 9 ~ Moon of Realization

Eagle flies amidst Stars becoming Dragon Realizing *during our Year of Wizard Originating*

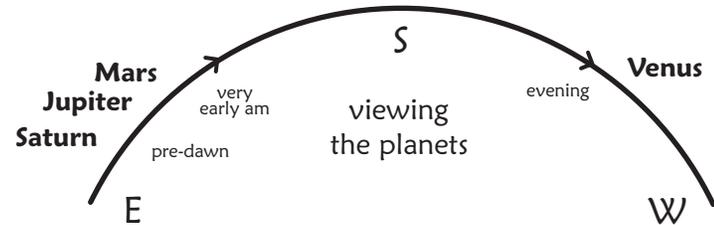

Visions of freedom become real as **Eagle** flies unfettered. There's magic in the air, and all around, uplifting our winged bodies & beings. **Mercury goes Direct** in Aquarius as the Full Moon shines in Virgo, heightening mental acuity that can be turned toward practical matters and everyday magic.

Moon shines with Mars, Jupiter, and Saturn before dawn in the east, the arising of **Star** magic's beauty story being lived in the real world. Freedom comes through embodying our creative force, balancingly. Equinox finds **Mars conjuncting** Jupiter, Pluto, then Saturn as our way & place in the world transform, for real.

Saturn moves into Aquarius for an initial foray. What's old is new again! Tangible visions of what could become real when Saturn fully settles in Aquarius 2021–2023 arrive. Moon gifts Venus a 6th vestment pineal-topped scepter of sovereignty.

Dragon births the beginning of a new reality as **Jupiter conjuncts Pluto** (exact as we move from Realization to Manifestation). The lived freedom of the last round of waves now meets good fortune combined with intense focus, which confer the power of realness wave by wave for 260-days. Tangible transformation is happening.
