

Moon 12 ~ Moon of Integration

Earth Dog in the Night Integrating

during this year when Wizard Meets Mirroring Storm

We find our way, navigating **Earthedness** by synchronicity, learning to ground thru embodied presence in meeting all of life, and building complex stability as we ripen into living here beneath Moon and stars.

Dog brings so much love to this journey, love of home & family, and love of work. From the Gemini New Moon ring of fire Solar Eclipse with Mercury, we learn to make friends with love, to enjoy hanging out with our pack, interested & talkative, embracing changeability. Moon visits Venus, conferring the first vestment, an Evening Star robe.

Saturn in Aquarius squares Uranus in Taurus, challenging us to learn to take action from new places in our beings, to reconcile time & timing, ideas & embodiment, practical radicalism and responsible freedom. This is a revolutionary revolution, that doesn't look like what we think. There's tons of energy available for doing the work. It's not about efforting, but contributing our integral uniqueness. Be willing to not know how or have a plan. Leap into the moment.

Night is a time for integration, for being at home & turning inward, for dreams & stories of wisdom and experience under Full Moon in Capricorn, amidst these shortest nights. Mercury turns direct to enter the story.
