

# Moon 9 ~ Moon of Realization

## **Storm Turns Real Humans into Serpents**

*during this year when Wizard Meets Mirroring Storm*

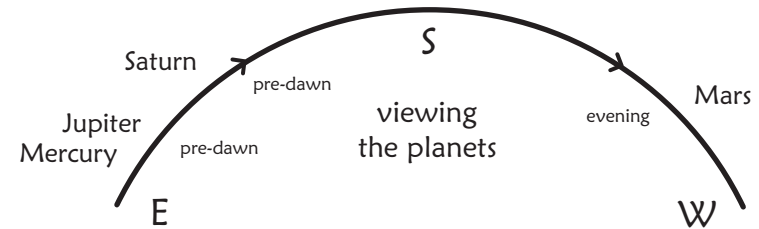

A **Storm** at sea washes over our little Piscean boat of being, swamping us with realness. Huddled together, Sun, Moon, and Venus meet Neptune amidst the stirred-into-winds-and-waves cosmic vastness. We realize this is not about navigation to where we want to go, but engaging with, when it comes down to this moment, how we really meet the world within this storied dream!

Cast up on the shores of being **Human**, we differentiate and individuate through the Aries Spring Equinox creative will and impulse to assert, emerge, and express. Our actions come into form, in season and concert with the tides of the times, as this real emergent moment of being selves meeting the world.

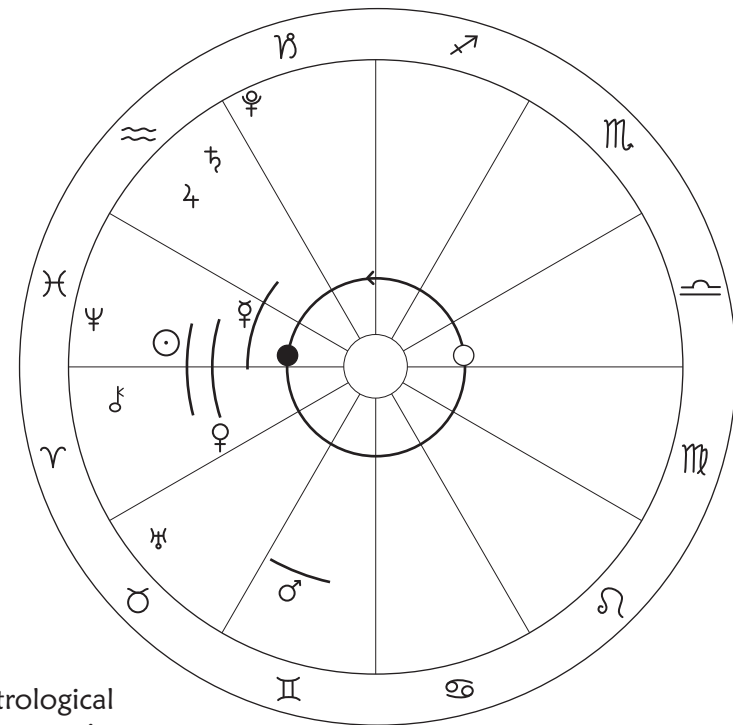

Amidst this refining journey, Venus in Aries encounters Sun during an underworld initiation, that we might become, and come to know ourselves as, more fully, physically, and uninhibitedly willing to love.

Full Moon in very Human Libra opposite Sun with Venus & Chiron in Aries beams **Serpent** vitality down from the cosmos into and through our bodies and nervous systems into the world. Lots of oomph is available for empowered relating, with everyone and everything, through an undulating dance of embodied realness! The portal is open and stays open. May we let this real cosmic energy source be our motivating force.
