

● Moon 1 ~ Moon of Purpose

Wind lifts Eagle to the Stars on Purpose as **Wizard Seeds Wind**

Moon & Jupiter illuminate a vast, artful Piscean dream, cool waters raising **Wind**, breath of spirit, words, songs, gestures, & poetic utterances, that carry and dance **3 Seeds** of generous possibility. This is a time of speaking & singing the origin stories of new realities.

Soon, we awaken to **Jupiter rejoining Saturn in airy Aquarius**, both shining brightly. We're weaving our dream stories into this new reality, by learning to live the magic of our way and place, our unique purpose, in bringing this new time.

Eagle takes wing, lifted into flight upon Aquarian winds. Soaringly flying free, gaining perspective & seeing clearly, gliding the currents in the upper realms of magic, this is living our purpose. New Moon in Leo rejoices in the play of this living magic. Moon then quietly confers a ring of power, visiting Venus in Virgo for the 3rd vestment.

Star ripens us into creative elegance thru dancing storied unfoldings, as revolutionary Uranus retrogrades, trined by Mercury & Mars. Originating ensparkedness flows, through thought, speech, & action.

Aquarius Full Moons, with Jupiter at its brightest, & hours later Sun moves into Virgo. Embodied fullness shining amidst the starry dance shows us how to serve this time through being on the move, living in our unique ways. Expansively journeying is our sacred work.
