

# Moon 10 ~ Moon of Manifestation

## **Moon shines on Wind and Eagle Manifesting**

*as Wizard Seeds Wind*

**Moon** dances us within the magical What Is, as Mars meets Saturn in Aquarius for some seriously embodied being in, wanting this, and doing of the work, which manifests as the new reality. This is a time for showing up and entering the moonlit marketplace.

With **Jupiter conjunct Neptune in Pisces**, we learn to ride the ocean swells and arising **Wind**. Swimming in the so-much-larger-than-us seas and breathing in the fresh utterances of spirit, we receive new visions for the journeying of our intuitive artistry, not as a strategy to get what we want, but as new ways of living, of meeting & expressing, of singing & speaking, the manifest story of What Is. 3 Seed is the Walking & Talking day of the year. Life invites us to know ourselves and move as **Wizards Seeding Wind**. Mercury & Uranus come together in Taurus, embodying the magic of personal & higher dimensional mind merged. Wild idea seeds...

Upon this spirit song of Life, **Eagle** takes to the wing, soaring high in the vastness, seeing the great & small, in and as magic manifest. Moon slips through the clustered eastern predawn planets, coming to Venus w/ Jupiter (& Neptune) for the 4th divestment unbuckling & removal of the heart-protective breastplate. Drawing in an expansive breath, we feel the immensity of love. Partially solar eclipsing Taurus New Moon initiates more pleasurable embodiment.
