

Moon 12 ~ Moon of Integration

Dragon's Wizard Hands Integrate

as Wizard Seeds Wind

Dragon's tail flips us into a Dark Moon Gemini integrative merging, crystallizing what's been and what's to come into a new beginning in living here as humans journeying moment to moment, in intimate connection with source. We learn to converse with Life, beyond words, as, and from within, Life!

Greater ability and capacity for naturally **Wizarding**, shapeshifting to meet the moment, engaging but not efforting, begins to be integrated into our thoughts and words as Mercury turns direct, and to become more solidly and maturely embodied in doing what's ours to do as Saturn in Aquarius stations retrograde.

Making our way, touching and shaping, crafting a life, happens through our **Hands**. This is how Life naturally unfolds. It's time to relax into it, flow with it, and let go of being so blown away and defensively dramatic about it all. This is real! This is how life works now. Late in this third year of the Wizard journey, this is our new "master craftsman" way of life. In the coming fourth year of this Wizard journey, how we move will shape us into a new form, a quite different form than we even thought form could be!

Amidst a freeing storm portal, Moon visits Venus for the 6th Divestment's dropping of the girdling belt. We're ready to nakedly flow, with dancing hands, from our belly-buttoned elixir field...
