

Moon 4 ~ Moon of Form

Sun Skywalks in Worldbridger Form

as Wizard Seeds Wind

Mercury in Libra stations Direct as new relatedness moves into form, tangibly re-directing our thought patterns and articulations.

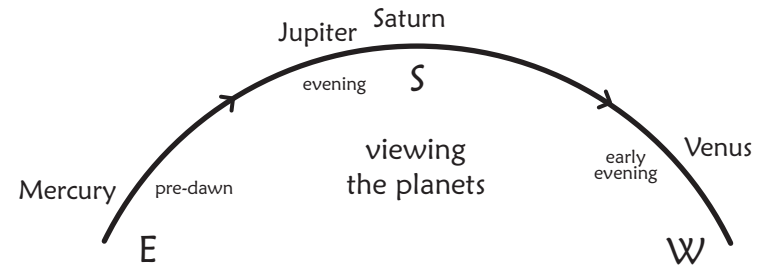

Sun carries us toward the dark of the year, bringing us in, & home. Ripening our new beginning in relating and meeting challenge, we're learning not to cling to identity or persona, but to simply shine in the day and rest in the underworld night, maintaining ourselves and showing up. Full Moon in Aries glows in the dark, the embodied impulse to assert and express, with feeling.

We refine our newly begun direct relatedness, by living it in new forms. **Skywalking**, we journey dimensionally, extending our experience of form into a more inclusive and nuanced embrace and expression of here & now. Dark Moon & Sun in Scorpio set as Uranus rises at its brightest, beckoningly emanating a deeply energizing invitation into embodying direct relatedness, quietly and darkly uttering a way to freedom.

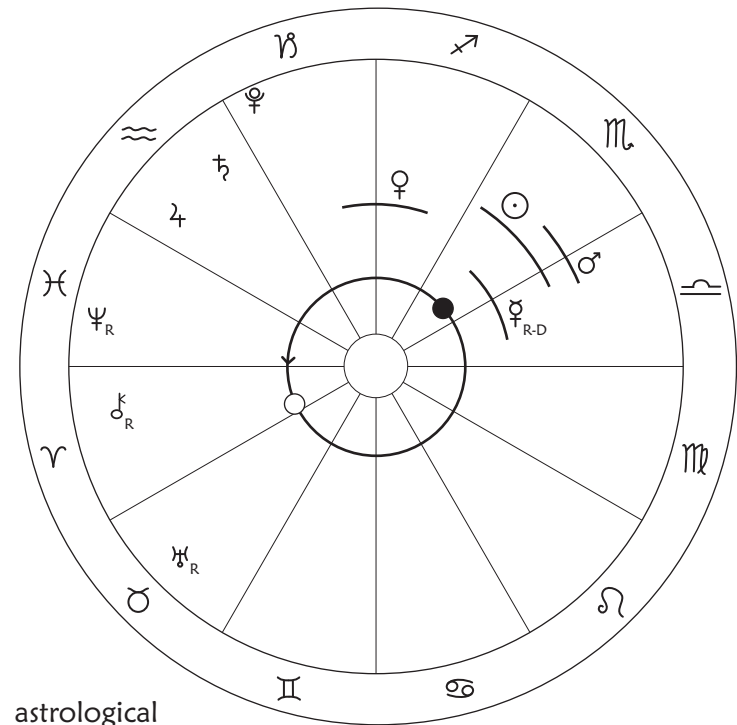

This journeying brings us to a threshold between worlds, a place of mixing that requires us to courageously die to who we've been, relinquishing known form. Here, through surrender & true humility, we learn to live as **Worldbridgers**.

Moon visits Venus amidst the wafted Milky Way star-steam of the Teapot's spout. A 6th Vestment scepter is bestowed, enhancing third-eye pineal perception of the mysteries.
