Moon 6 ~ Moon of Balancing

Humans Serpenting Mirror Monkey Balancing
as Wizard Seeds Wind

As **Human** selves, we meet the world beyond our selves, living the freedom of generous possibility, amidst a celebratory star shower.

This time last year, we birthed a new 20-year Aquarian Jupiter/Saturn cycle of doing what's uniquely ours to do in bringing a new reality. Now, our living of this cycle is transformed through embodying a vitalizing **Serpent** dance that turns us into portals, flowing with Life.

All this Moon the biggest transit of the year is strongly with us, as **Saturn in Aquarius squares Uranus in Taurus**. Internal tension is resolved through taking action from a place that honors both the slow work of respectful maturity & energetically-embodied timing.

Our perceptual reality shifts as **Mirror** reveals, in every one and every thing, reflections of the selves we're showing up as. **Jupiter moves into Pisces**, bringing new dreams, visions, & ways of meaningfully journeying. We swim in the seas of storied possibilities.

Venus, shining so brightly, turns retrograde and drops quickly from the evening sky, visits Pluto, then ducks behind a bush and kisses Sun, seeding a new 584-day Capricornian Venus cycle of mature love & work. This comes just as we reach the moment of transformation at the center of this direct relatedness cycle of waves, with **Monkey** stepping in... Through active, serious play, we transform & discover. Through loving & meeting the work, we craft a life.
