

● Moon 1 ~ Moon of Purpose

Worldbridging Storm of Human Purposeful Originating as Wizard Moon Bridges Worlds

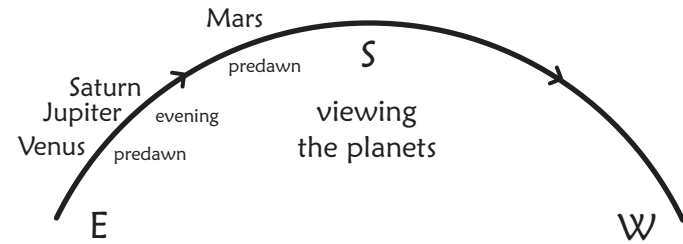

As the new year begins on a 4 Moon portal day in the World-bridger wave, before dawn in the east, Waning Crescent **Moon visits Venus for the 7th divestment**. Dropping our root chakra robes, ready to soon journey the underworld, liminal zone enveloping us even now, we stand naked in our power, as love, **Worldbridgers portaling**.

Darkened into **New Moon in Leo**, with great generosity and exuberance for life, engaged in creative play, we're becoming original... As we do, **Jupiter in Aries turns retrograde**, our action-orientation heading us back toward living a vaguely remembered Piscean dream. Meanwhile, vigorous Mars joins awakener Uranus in Taurus, activating and revolutionizing the immediacy of our sensual embodiment.

Atmospheric pressures build. Worlds collide. **Storm** unleashes a thunderously energizing resuscitation, peaking as **Aquarius Full Moon conjuncts Saturn square Uranus**. We're internally challenged to do the maturing work of meeting the unexpected; it's timely time. Seriously revolutionary refining means responsibly showing up in our uniqueness.

Living our natures, coming together newly, this is our true **Human** purpose and expression. We are portals joining the Heavens & Earth. We originate thru this joining, moment to moment. With **Mars moving into Gemini** until next spring, we're being initiated into an active, fast-paced changeability, a will(ingness) to meet, learn, & converse with This!
