

Moon 13 ~ Moon of Freedom

Seeding Earth Dog Freedom

*as Wizard Moon Bridges Worlds
toward a year of Wizard Dog Selfing*

A gateway opens into the All-That-Is of Universe. And, **Seed** flies through, becoming a fertile portal into the ongoing, embodied, intensely generous possibility of attuning ourselves to freedom, into the ripening transformation of growing organically, all in, and with, and as, Universe. **Full Moon in Capricorn**, reminding us that learning to live this freedom is what's ours to do, our work & responsibility, shines from 7 Dog into 8 Monkey, attuning us to loving the work of actively following our curiosity.

Here we are, on **Earth** in the Universe, being free, shifting with the shifting, navigating by synchronicity. **Dark Moon in Cancer** waxes into Leo to meet Venus (with Mars) near the star Regulus, for the 7th vestment crowning. We become bright, willing to be seen, radiantly beautiful, regal, and adorned.

We roamingly revel in freedom, as **Dog**, loving the vastness, and as the vastness. The unabashed sunshine of our love abounds, as Sun moves into Leo, and Evening Star Venus turns retrograde in Leo, soon to carry her brightness thru a portal into morning sky.

The **Day Out of Time**, on 4 Skywalker portal day in the Dog wave, offers the possibility of leaping into the freedom of journeying as love in form.
