

Moon 8 ~ Moon of Action

Dragon's Wizard Hands Are In Action

as Wizard Moon Bridges Worlds

Now comes the time for actively living our newly developing attunement to **Dragon** song. As we walk our learnings of this year down from the mountaintop into the world, it's not enough to believe or have ideas or an identity about who we are, we must sing and be sung into life. This is a time for deeply primordial beingness as our lived experience, moment to moment.

This shapeshifts us into the effortless action of **Wizard**, walking along, singing a song, living the knowing that everything needed in this moment is present in this moment. Us right here, vibratory beingness in resonance with the unfolding of Life, is everything.

Dark Moon in Pisces waxes into a convergence with Venus (accompanied by Jupiter), bestowing the 2nd vestment's girdling belt. We're singing and walking in the Universe, graced by the twilight blessing of the bright benefics shining together, hips swaying as we stroll along, our new belt quietly jingling along to the rhythm of Life...

Our **Hands** join in the action, and here too the impetus comes from the flow of our 2nd chakra. We're invited to be wholely embodied, dancingly touching, shaping, crafting, making, and accomplishing, with our doing as simply a way of being in action. Venus in Aries with Jupiter & then Chiron, infuses our actions with love & valuing, in a deeply healing way. We're learning to caress and contribute to the beauty, rather than greedily grabbing or taking.
