

# Moon 6 ~ Moon of Balancing

## **Skywalker Worldbridges a Storm Balancingly**

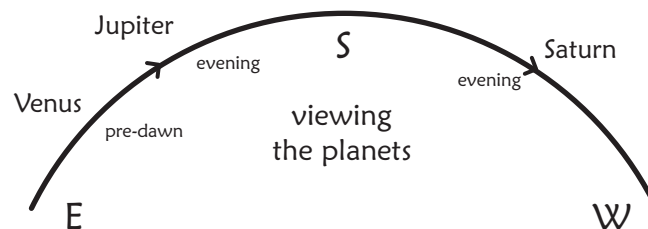

*while Wizardly Dog Selfing*

Amidst the Geminids meteor shower, **Mercury turns Retrograde** in Capricorn as **Skywalker** initiates us into journeyingly meeting the world beyond our newly forming selves through continual dynamically balancing adjustment. Through this meeting, we're asked to reconsider and mature in how we perceive & communicate, to take seriously learning to be real and grounded in a more cosmic and multi-dimensionally engaged way. At **Winter Solstice**, Sun and Mercury do a do-si-do across signs, while setting the southern cornerposts of the House of Sun and Moon.

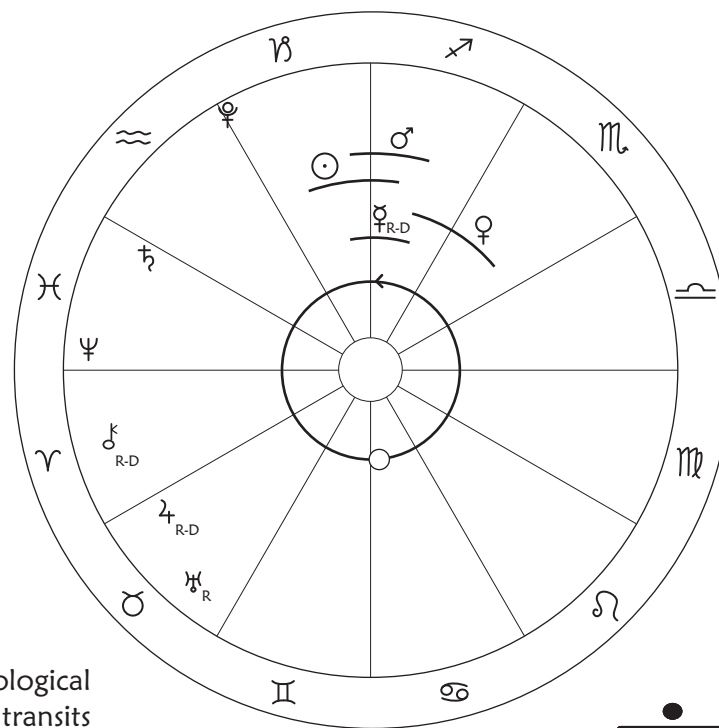

In this deep winter time, comes a deep dying to who we've been in meeting life, a surrender of our defendedness. **Worldbringer** resides in the liminal zone, the threshold between worlds. Here, we're humbled, asked to willingly meet What Is, with quiet dignity. **Full Moon in Cancer** as Chiron stations Direct transmits an embrace of care. Mercury turns Direct as we enter 2024 on 8 Skywalker in Worldbringer. Take action in a multidimensionally journeying way, really living in a way that bridges worlds, both social and cosmic.

**Storm** dances in, activating encounters via atmospheric pressures colliding. We're being changed through the meeting, as charged energetics unbalance and rebalance. Moon visits Venus for the 5th divestment, removing the third chakra ring of power, willingly here.
