

# Moon 8 ~ Moon of Action

## **Serpent Mirroring Monkey Action**

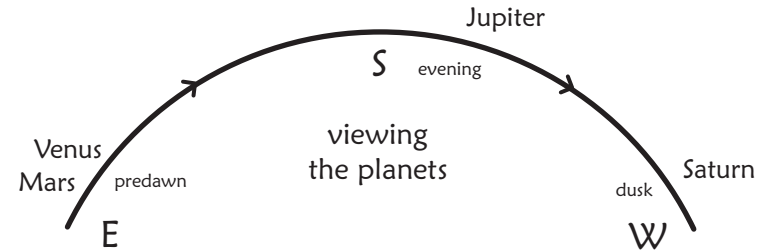

*while Wizardly Dog Selfing*

Before dawn in the East, Moon visits Venus for the 6th divestment, unbuckling of the jingling girdled belt, becoming living **Serpent** portals, energy rippling through, 2nd chakra flow moving us into embodied action. Moon then joins with Mars on its way to seeing with the cool gaze of **Dark Moon in Aquarius**. Emerging from the Serpent portals, Mars enters Aquarius, welcoming recently arrived Pluto, initiating new forms of actively living & physically experiencing.

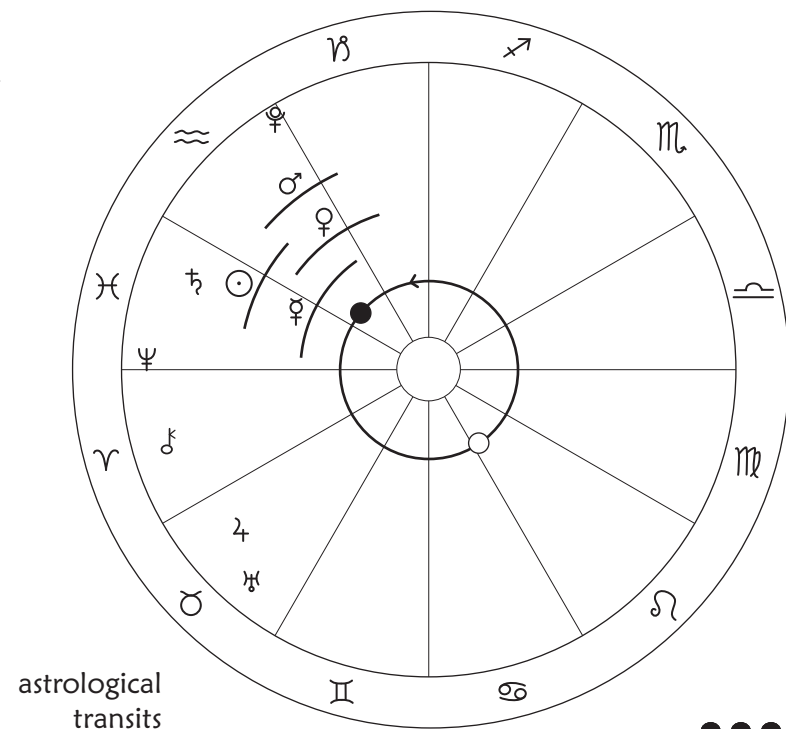

Reflective **Mirroring** is a form of transformative action. As we live and walk in this world, the reality we perceive and participate in is brought into form. Perceptual integrity in living in and as Universe here and now, rather than insistently conversing with empire, brings new forms, even as Venus in Aquarius, joins Mars in welcoming Pluto. **Full Moon in Virgo** invites us to imbue every action with the refining powers of sacred practicalness and practical sacredness.

This brings us to the transformation of the transformation, the crossover midpoint moment (2/27-2/28), of this Forming Anew round of waves. **Monkey** reveals that playful discovery is the way! No figuring out needed, just being curious and actively engaged, and thus discovering and becoming in the making. Sun, Mercury, and Saturn are all together in early Pisces as we embark upon Monkeying around in the Universe!
