

Moon 12 ~ Moon of Integration

Wind lifts Eagle upward for Star Integration

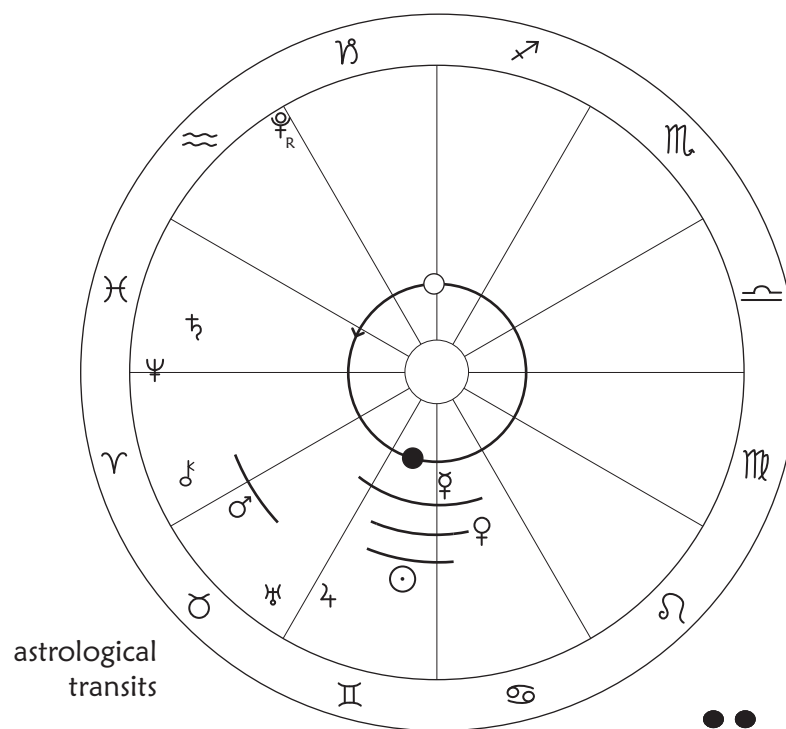

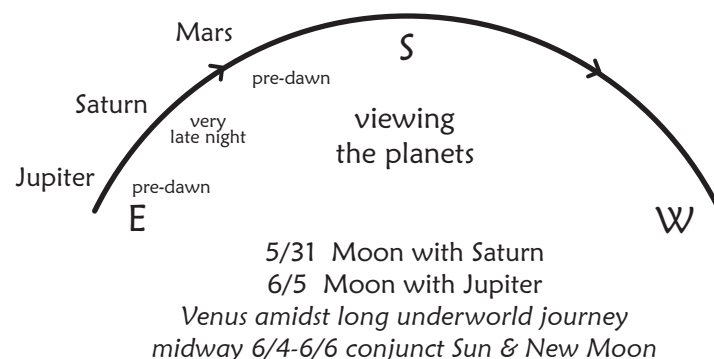

while Wizardly Dog Selfing

Unseen **Wind**, breath of spirit, speaking magic integrates worlds. With **Jupiter in Gemini trine Pluto in Aquarius**, both newly in air signs, comes expansive transformation, which may involve both experiences of big sky flowingness and some deep dying to less than mature ways of perceiving and speaking, of journeying in Life. Venus, midway through an underworld journey, joins with Sun and **New Moon in Gemini**. So much air! Rather than being chatty windbags talking to hear ourselves think or expounding upon our special inside information, we're invited to learn to more truly and relationally converse, with all of Life! Time to pause, and breathe.

Eagle lifts into flight on wind, with outstretched wings, soaringly weaving together Earth & Sky. **Summer Solstice** Sun in Cancer (square Neptune) brings **Full Moon in Capricorn** — long bright days and moonlit nights, where nourishing and mature magic comes as we relinquish our insistences and addictions, as we learn to live more real and “at home in the Universe” artfully musical stories.

Star and Moon shine together, crystallizing beauty, the ripening of creative magic.
