

# ● Moon 1 ~ Moon of Purpose

## **Wizard Hands raise Sun, Originating Purposefully while Storm Wizard Balancing**

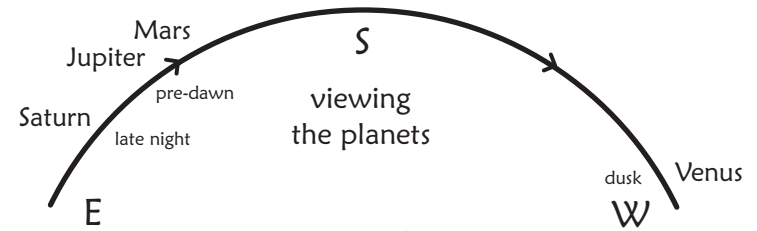

Shapeshiftingly **Wizarding** the beginnings of learning to Live Freely, we encounter the world beyond our selves as an energetic **Storm** of Aliveness. We're invited to dancing balancingly as we're drawn through the Magnetic Gateway into the journeying of this new year.

Transformation of our new beginning in Living Freely comes through being **Hands** on. This is a time for getting to work (amidst the energizing and activating Storm, not waiting for it to be over!), making and shaping our way, crafting a life. **Dark Moon in Leo, emerging Evening Star Venus in Virgo, and Mercury in Virgo turning Retrograde** converge in an experience of exuberant Leoine creativity with Virgoan craftsperson attention to detail, beauty brought forth and fostered through reviewing and revising playfully. This year, we are taught **creative process as a way of life** by Life!

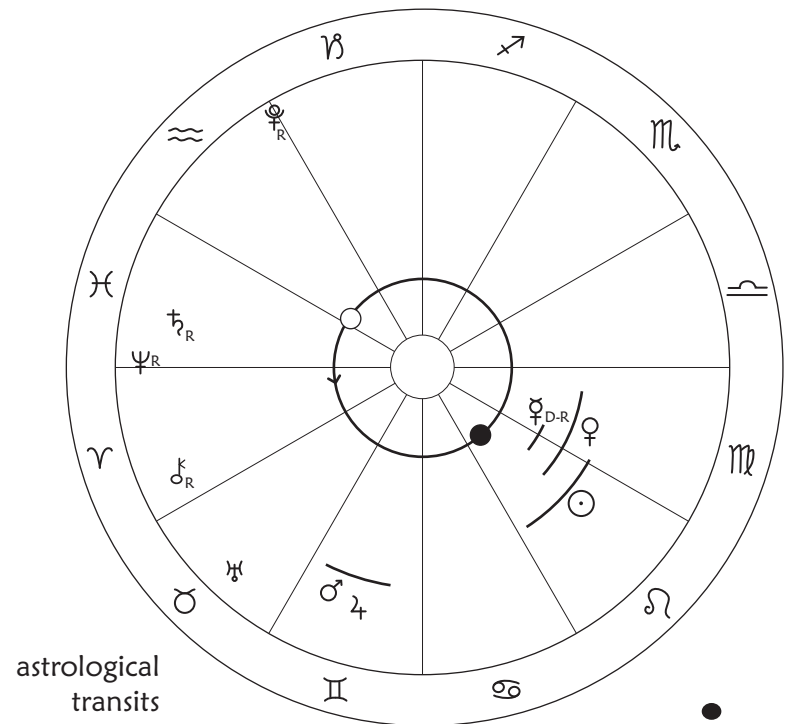

**Sun** arises, radiantly, shining generously upon these creative Leo days. **Full Moon in Aquarius** square Uranus shines through the night, further activating our embodiment of this Storming into freedom, as we honoringly meet the beyond human, contributing our uniqueness.

**Jupiter squares Saturn**, 1st of 3x this year, the first quarter phase of this 20-year journey, which began with their Winter Solstice 2020 conjunction at 0° Aquarius. Now, the tension of the mutable square spurs us to action. Time to do what's ours to do in bringing the social world and selves of this new time thru revolutionary conversational journeying, respectfully real in expressing storied unfolding Universes.
