

# Moon 12 ~ Moon of Integration

## **Worldbridging Storm of Human Integration**

*while Storm Wizard Balancing*

**Worldbridger** integrates worlds by residing on the threshold between them, in deep humility, continually dying to what's been.

For the coming year, **Jupiter moves into Cancer**, embodying deeply tidal feeling, nourishing and nurturing a sense of belonging.

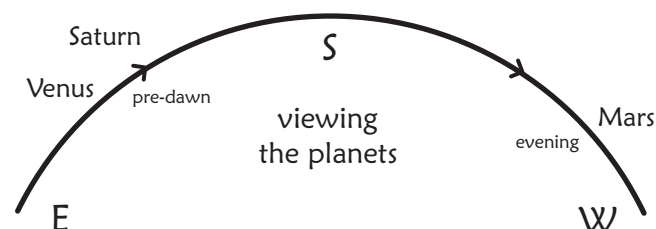

As we shift into the **Storm** wave (in this *Storm Wizard Balancing* year), **Full Moon in Sagittarius** trines Chiron, providing divinatory guidance in living our gifts as healing teaching transmissions, amidst the activating and enlivening thunderings of energetic transformation.

**Saturn & Neptune newly in Aries**, within a degree June-July, bring the tangible work of being present in realness while immersed in the storied emergent unfoldings of Universe. Newly in Cancer, **Jupiter squares Saturn, then Neptune**. Jupiter square Saturn tensions spur action in journeying expansively in our sovereignty, doing what's ours to do in feeling and expressing the emergence of the new Aquarian age. Jupiter square Neptune engages us in actively living and journeying our belonging, being at home, artfully and musically, in emergent Universe.

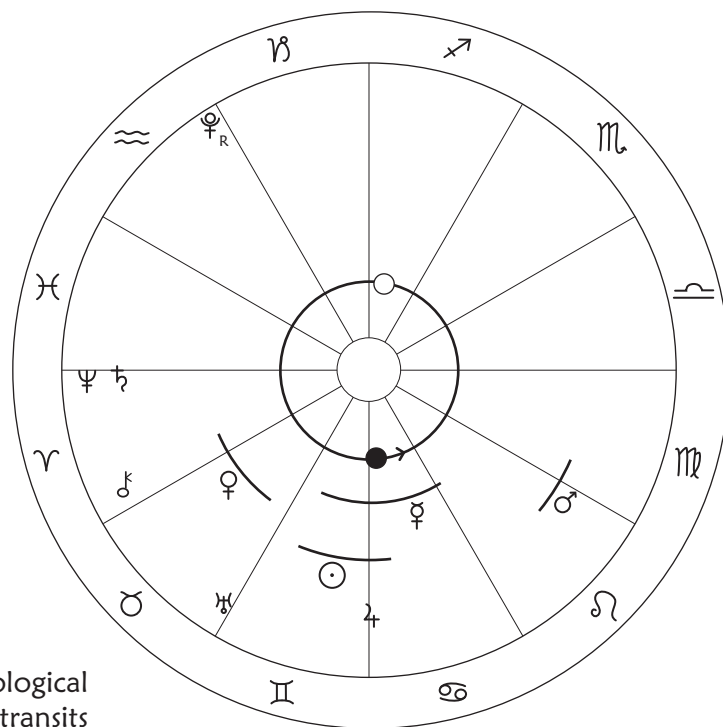

Sun moves into Cancer for the long day of **Summer Solstice**; Moon visits Venus for the 3rd Divestment, unclaspings of the throat chakra necklace.

**Humanness** is crystallized by **New Moon in Cancer with Jupiter**.
