

Moon 2 ~ Moon of Relatedness

Sun Skywalks, Worldbridging Relatedness

while Storm Wizard Balancing

Sun offers its radiance freely in healthfully honoring Virgoan service to meeting the challenge of engaging in relatedness with all beings, as **Mercury goes Direct in Leo**, infusing warm generosity into communicative connections of all kinds.

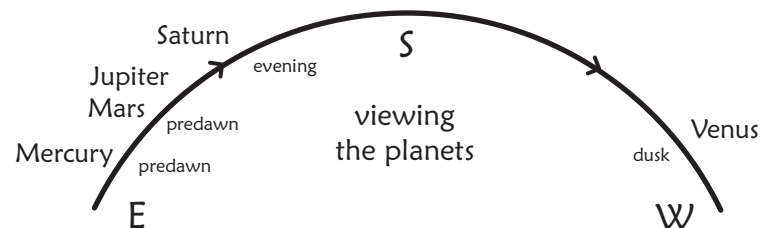

Amidst the refining journey of participating in relatedness from a sense of freedom, we become dimensional **Skywalkers**, willingly adventuring the unknown.

Deeply transformational **Pluto retrogrades back into Capricorn** for a final visit, to tumble down lingering structures and insistences.

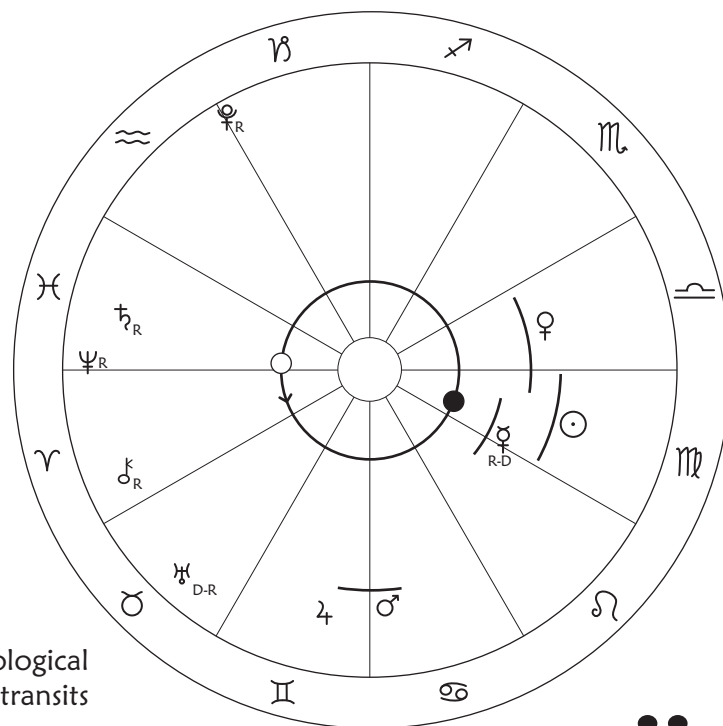

Dark Moon in Virgo reminds us that we're in service to sacred practicalness, to practical sacredness. Once waxing Crescent Moon visits Venus to confer the 2nd vestment— a jingling girdled belt, this may look like moving slowly, and steadily, from 2nd chakra dantian/hara impeccability,

Entering the liminal zone of relatedness with All-That-Is, continually dying to who we've been, we traverse a **Worldbridging** ridgeline, traced by the interplay of light and shadow. Pulling us deeper into dream storying Universe immersion, **Full Moon in Pisces with Neptune is eclipsed**, caressingly, inviting us into Moon-fleshed artfulness and musicality in the dance of ecosystemic relatedness.
